STATEMENT OF PURPOSE

RS19639C1

This legislative proposal deals with the scope and power defined by the Tenth Amendment of the United States, providing that the Federal Government was created by the States specifically to be an agent of the States and that Congress is urged to pass legislation implementing the findings provided for this resolution. Those findings include balancing the Federal budget, extinguishing the public debt, providing for government transparency, maintaining the growth of the Federal government, preventing unfunded mandates, prohibiting government from taking ownership of private sector enterprise and providing for the presence of "God" in the public domain.
