

STATEMENT OF PURPOSE

RS24013

The Board of Pharmacy desires to delete Chapter 8 from Title 39, Idaho Code. Historically, the Board has not regulated the distribution and sale of non-prescription contraceptives and prophylactics and the Board considers such regulation outside the normal course and scope of its responsibilities. Nothing in this chapter relates to prescription contraceptives, the distribution and sale of which continues to be regulated according to state and federal law.

FISCAL NOTE

This legislation will have no fiscal impact.
