

STATEMENT OF PURPOSE

RS24204

Amends the Ground Water District Act, Chapter 52, Title 42, Idaho Code to enable ground water districts to impose assessments based on the number of acres authorized to be irrigated as an alternative to the quantity of water authorized to be diverted.

Idaho Code sections 42-5232, 42-5233 and 42-5234 presently provide for assessments based on the quantity of water authorized to be diverted. Some ground water districts prefer to assess irrigators based on the number of acres authorized to be irrigated. These amendments enable districts to do either.

FISCAL NOTE

There is no impact to the general fund.
