

STATEMENT OF PURPOSE

RS24357

This amendment would allow the hearing officer to not impose the 90/180 day sanctions where the violation is sexual or violent in nature, or the violator has been formally charged with a new felony or violent misdemeanor to remain in custody for safety of the public while the charge is being adjudicated.

FISCAL NOTE

There would be no negative impact on the General Fund or a dedicated fund as the commission is not changing any fees currently used for the operation of the agency.
