SUBJECT: State Board of and State Department of Education

IDAPA 08.05.01 - Rules Governing Seed and Plant Certification - Proposed Rule (Docket No. 08-0501-1701)

The State Board of Education submits notice of proposed rule at IDAPA 08.05.01 - Rules Governing Seed and Plant Certification. According to the board, the purpose of the rulemaking is to amend the Idaho Grain Certification Standards "Land Requirements" to allow irrigated fields producing certified class seeds to be used if they have not produced small grain for the previous crop year unless the small grain was of an equal or higher class of the same variety being planted. The board notes that additional changes would amend the Potato Certification Standards, removing "corky ring spot" from the Seed Lot Disqualifying Conditions and specifying that seed lots with a greater than 1.0% of "Well Defined Mosaic" are not eligible for re-certification.

The board indicates that negotiated rulemaking was conducted. The board also notes that seed and crop standards are incorporated by reference due to formatting that is not consistent with the standard administrative rule format and adds that incorporation by reference is consistent with how the University of Idaho Board of Regents treats other types of standards. The rulemaking appears to be authorized pursuant to Section 22-1504, Idaho Code.
