

STATEMENT OF PURPOSE

RS28377 / S1050

This legislation allows enrollees to receive up to a 12 (twelve) month supply of prescribed contraceptives if they so choose. Currently, many insurance plans reimburse for only a 1 (one) to 3 (three) month supply of contraceptive supplies. This legislation will require any health benefit plan issued or renewed on or after January 1, 2022, that covers contraceptives approved by the Federal Food and Drug Administration, to provide reimbursement for up to a 12 (twelve) month refill supply obtained at one time by the enrollee. The enrollee or prescribing provider may request a smaller contraceptive supply.

FISCAL NOTE

There is no foreseen fiscal impact to the general fund because this legislation deals with a policy change for insurance companies.
