

STATEMENT OF PURPOSE

RS28529 / S1098

This legislation allows enrollees to receive up to a 12 (twelve) month supply of prescribed contraceptives if they so choose. Currently, many insurance plans reimburse for only a 1 (one) to 3 (three) month supply of contraceptive supplies. This legislation will require any health benefit plan issued or renewed on or after January 1, 2022, that covers contraceptives approved by the Federal Food and Drug Administration, to provide reimbursement for up to a 12 (twelve) month refill supply obtained at one time by the enrollee. The enrollee or the prescribing provider may request a smaller contraceptive supply.

FISCAL NOTE

This legislation requires insurers to expand their contraceptive coverage. This legislation does not mandate any appropriations and does not mandate any future appropriations. This legislation will not negatively affect the general fund or any dedicated fund.
