

STATEMENT OF PURPOSE

RS24595

School districts pay some certificated employees to work extra days beyond the standard teaching contract year. Employees such as school counselors, speech language pathologists, school psychologists, CTE instructors, IT personnel, school nurses, or others may work anywhere from 1 to 60 days beyond the end of the standard teaching contract year. Currently, there is no statutory provision for districts to differentiate between the standard teaching contract and extra days. This legislation would allow school districts to issue separate contracts for extra days.

FISCAL NOTE

There is no fiscal impact to the general fund.
