

## STATEMENT OF PURPOSE

### RS24598

The purpose of this legislation is to eliminate the States role in setting costs for commercial drivers license (CDL) skills testing. Currently the Idaho Transportation Department (ITD) stipulates and collects \$70.00 for CDL skills tests. ITD keeps \$10.00 for administrative purposes and passes along \$60.00 to the private CDL skills organization. This legislation will allow ITD to still receive \$10.00 but ITD will not have to transfer monies to the CDL skills testing organization. The CDL skills testing organizations will be allowed to establish fees as they deem necessary and will allow the free market to determine prices.

### FISCAL NOTE

No fiscal impact to the General Fund or any state agency.
