

STATEMENT OF PURPOSE

RS24664

This bill brings breweries into alignment with wineries by allowing minors in tasting rooms. Current code allows them to enter a winery tasting room but does not account for breweries. Craft brewing is a new and growing industry in our state, and many of those breweries offer tours and tastings as a part of their business. Like wineries that offer tours, craft brewery tours and tasting rooms are an experience meant to focus on the craftsmanship of the brewers.

FISCAL NOTE

No impact to the General Fund.
