

STATEMENT OF PURPOSE

RS24153

The purpose of this legislation is to ask the legislature to reinstate minimal travel expense reimbursement for county commissioner members of the catastrophic health care cost program board of directors. This would allow for participation in two 'in-person' board meetings per calendar year.

FISCAL NOTE

The board travel expenses will be a minor fiscal impact which would be covered by a slight increase to operating expenses and would allow for reimbursement for no more than 2 meetings a year. The costs are estimated at approximately \$7,200 a year increase to the operating budget which is currently \$385,000 per year.
