

## STATEMENT OF PURPOSE

**RS24463**

This legislation clarifies that the right of a private property owner to request a regulatory takings analysis is discretionary. If a private property owner elects not to request a regulatory takings analysis, it does not limit their ability to pursue other legal or equitable remedies regarding the government action pertaining to their property.

### FISCAL NOTE

It is anticipated that the fiscal impact will be de minimis, if any, to state or local governments in Idaho.
