IDAPA 01.01.01 - Idaho Accountancy Rules - Proposed rule (Docket No. 01-0101-1701)

IDAPA 01.01.01 - Idaho Accountancy Rules - Proposed Rule (Docket No. 01-0101-1702)

IDAPA 01.01.01 - Idaho Accountancy Rules - Proposed Rule (Docket No. 01-0101-1704)

The Idaho Board of Accountancy is proposing to promulgate four sets of proposed rules relating to the practice of accountancy in Idaho. Two sets of proposed rules relate to continuing education requirements with one of the set incorporating by reference and making a date change and two sets implement the provisions of House Bill No. 138 of 2017. HB 138 was jointly sponsored by the Idaho Association of Certified Public Accountants and the Board of Accountancy. HB 138 updated the Idaho Accountancy Act to conform to current professional standards (AICPA standards) and professional service offerings now provided by CPA's. The Statement of Purpose for HB 138 provided that accountants' work has changed from "merely" working on financial statements to performing a different array of professional attest services that include internal control reviews for information systems, performing internal control work for publicly traded companies, and performing specific work for third parties such as banks and governmental entities. HB 138 also amended Section 54-219, Idaho Code, to include forms of judgment or withheld judgment regarding crimes of moral turpitude regarding discipline procedures.

We do not have any technical problems with any of the four sets of proposed rules. It appears to us that these proposed rules are relatively non-controversial and could have been promulgated under one docket instead of four.

The following agency of the state of Idaho has prepared this synopsis as part of the proposed rulemaking for the chapter cited here under the docket number specified:

***IDAHO STATE BOARD OF ACCOUNTANCY
IDAPA 01.01.01 – Idaho Accountancy Rules
Proposed Rulemaking - Docket No. 01-0101-1701***

The Statement on Standards for Continuing Professional Education (CPE) Programs (*Standards*) is published jointly by the American Institute of Certified Public Accountants (AICPA) and the National Association of State Boards of Accountancy (NASBA) to provide a framework for the development, presentation, measurement, and reporting of CPE programs.

Primary changes from the 2012 to 2016 Standards include:

- Added two new learning methods which are acceptable forms of delivery: blended learning and nano-learning. Blended learning combines different types of instructional methods in a learning objective such as combining a self-study with a group program. Nano-learning is learning done in 10 minute increments and the licensee is award CPE increments based off a 50-minute hour model. The revised Standards have the definition of nano-learning and how it differs from self-study and what is considered nano-learning.
- Revisions were also made allowing CPE increments to be earned in one-fifth, one-half or whole credits for all instructional delivery methods with the exception of nano-learning. For group programs, independent study and blended learning, a minimum of one full credit must be awarded initially before partial CPE credits can be awarded. For self-study, a minimum of one-half credit must be awarded initially and then, after the first full credit is earned, partial CPE credit may be awarded. Nano-learning may be awarded only as one-fifth credit.
- Revision also provides the sponsor of the learning the discretion to round down CPE credits to the nearest one-fifth, one-half credit as appropriate for the instructional delivery method.
- These revisions provide flexibility and consistency and do not cause CPE sponsors to rework program materials or require existing programs to be remeasured for CPE credit.
- Provides clarification for group live and group internet based programs pertaining to how the participant consumes the learning.

- Clarified that documentation of the element of engagement in a group live program could include other documentation besides the program outline, agenda or speaker notes included as examples.
