

## STATEMENT OF PURPOSE

### RS25128

The intent of this legislation is to remove language that could be construed as proprietary and specific to one particular vendor. It will also require any salary and benefit study to show as part of market comparisons data specific to Idaho public and private sector employers.

### FISCAL NOTE

These surveys are already being done on an annual basis and the Idaho data is already being collected. The cost to reflect this data separately in a report will be minimal at most.
