

STATEMENT OF PURPOSE

RS25541

This legislation amends Section 16-1627, Idaho Code to provide for the consideration of alternative health care methods given a child by a parent or guardian when the court makes an authorization for emergency medical treatment.

FISCAL NOTE

There is no fiscal impact on the general fund or local units of government because any action taken under Section 16-1627, Idaho Code is already authorized in certain circumstances whether or not a child is under the authority of the court. This legislation simply provides for the court to consider alternative health care treatment given by parents in making its decision.
