## IN THE HOUSE OF REPRESENTATIVES

## HOUSE JOINT MEMORIAL NO. 6

## BY TRANSPORTATION AND DEFENSE COMMITTEE

## A JOINT MEMORIAL

TO THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE UNITED STATES IN CON-GRESS ASSEMBLED, TO THE CONGRESSIONAL DELEGATION REPRESENTING THE STATE OF IDAHO IN THE CONGRESS OF THE UNITED STATES, AND TO THE DIRECTOR AND BOARD OF THE IDAHO TRANSPORTATION DEPARTMENT.

We, your Memorialists, the House of Representatives and the Senate of the State of Idaho assembled in the First Regular Session of the Sixty-fifth Idaho Legislature, do hereby respectfully represent that:

WHEREAS, public highway agencies, including the Idaho Transportation Department (ITD) and Federal Highway Administration (FHWA) are required to conduct environmental assessments to consider the environmental effects of transportation projects receiving federal funds pursuant to the National Environmental Policy Act (NEPA) review process; and

WHEREAS, environmental assessments conducted pursuant to NEPA increasingly recommend that wildlife crossings, including overpasses, underpasses, and related fencing, are necessary or recommended additions to transportation projects to allow for the safe crossing of wildlife; and

WHEREAS, the link between receipt of federal funds for highway projects and the acceptance of environmental assessment recommendations can cause concern for state highway agencies such as ITD when objections to aspects of highway projects, such as wildlife crossings, are raised; and

WHEREAS, as to a proposed highway improvement project for the reconstruction of Targhee Pass on U.S. 20 between the junction with state highway 87 and the Montana state line, the NEPA environmental assessment process resulted in five alternative options, one of which would have included several wildlife crossings and dozens of miles of related fencing; and

WHEREAS, local citizens and elected officials, multiple homeowner associations, and members of the Idaho Legislature became concerned about the potential repercussions of wildlife crossing bridges and fences in Fremont County; and

WHEREAS, on an advisory ballot question presented during the November 2018 general election, 78% of Fremont County residents participating voted against the option to install wildlife crossings and fences along U.S. 20; and

WHEREAS, in a testament to our democracy in action and the power of citizens and governmental entities to coordinate to create a positive solution, ITD, ITD District 6, and the FHWA recently recommended a preferred alternative that addresses highway needs, safety, and wildlife, but does not include crossing structures with wildlife fencing; and

WHEREAS, the House of Representatives of the Idaho Legislature is grateful for the hard work and dedication shown by ITD and its staff, including the staff of ITD District 6, as well as the FHWA, to recommend a solution

that is responsive to the needs and concerns of local Idaho citizens and highway users while also achieving project objectives; and

WHEREAS, the House of Representatives of the Idaho Legislature extends congratulations to ITD, ITD District 6, and the FHWA with respect to their recommendation of the preferred alternative for the reconstruction of the Targhee Pass; and

WHEREAS, the House of Representatives of the Idaho Legislature believes that the situation presented by the Targhee Pass project and an initial option including wildlife bridges and fencing may again arise as to future transportation projects in Idaho; and

WHEREAS, a wide range of stakeholders are affected by wildlife crossings and related infrastructure in ways that are distinct from other transportation-related proposals and actions; and

WHEREAS, areas adjacent to highways in the State of Idaho are critical not only for the safe passage of motor vehicles, cyclists, and pedestrians but also for access to private and public lands, livestock, recreation, hunting, snow removal, and the preservation of scenic views; and

WHEREAS, stakeholders may not initially realize that transportation-related projects could ultimately involve the consideration of wildlife crossing infrastructure, including fencing, presenting a potential challenge to the goal of stakeholder involvement; and

WHEREAS, as demonstrated by the outcome of the Targhee Pass project recommendation, government functions most effectively when the voices of the people are heard and agencies are able to cooperate effectively together; and

WHEREAS, affected stakeholders benefit from the opportunity to be informed as soon as possible about the extent and potential impact of projects to allow for involvement in decisions about animal crossings and related infrastructure.

NOW, THEREFORE, BE IT RESOLVED by the members of the First Regular Session of the Sixty-fifth Idaho Legislature, the House of Representatives and the Senate concurring therein, that we urge the members of the Senate and the House of Representatives in the Congress of the United States to review the NEPA environmental assessment process for transportation projects to ensure that stakeholders are quickly and fully informed whenever wildlife crossing infrastructure is proposed as an option for a transportation project and that state transportation agencies be given clear guidance to that effect.

BE IT FURTHER RESOLVED that the Chief Clerk of the House of Representatives be, and she is hereby authorized and directed to forward a copy of this Memorial to the director and the board of the Idaho Transportation Department.

BE IT FURTHER RESOLVED that the Chief Clerk of the House of Representatives be, and she is hereby authorized and directed to forward a copy of this Memorial to the President of the Senate and the Speaker of the House of Representatives of Congress, and to the congressional delegation representing the State of Idaho in the Congress of the United States.
