

## STATEMENT OF PURPOSE

### RS26457

Idaho Code section 54-5004 currently requires one (1) Heating, Ventilation and Air Conditioning Board (Board) member to be a heating, ventilation and air conditioning (HVAC) specialty contractor. The Division of Building Safety (Division) and the Board have had difficulty filling this position with a qualified, willing specialty contractor. This legislative proposal will require one (1) Board member to be a representative of the HVAC industry, instead of an HVAC specialty contractor. This change will allow the Board and Division to adequately fill this position, while ensuring this position represents the interests of the HVAC industry.

### FISCAL NOTE

There is no fiscal impact, positive or negative, to any state funds, including the state General Fund and the Idaho HVAC Board fund. This legislative proposal will change the composition of the Board but will not change the costs of conducting Board meetings or otherwise affect any state funds.
