

## STATEMENT OF PURPOSE

RS27785 / H0565

This legislation creates a procedure for landowners to file petitions with a flood control district seeking the district's approval to annex their lands into the district.

## FISCAL NOTE

There is no impact to the General Fund because the annexation process will be administered entirely by flood control districts with no state agency involvement. Since current statutory procedures for enlarging a flood control district require filing a petition with the Idaho Department of Water Resources, enabling flood control districts to expand through annexation will lessen the potential administrative burden on the Department.
