H 659:

Rep. Giddings presented **H 659** which allows the public to examine election records to ensure that individuals who are deceased be removed from the voter roles. Currently, the Secretary of State, and the Department of Health and Welfare do not allow these lists to be available to the public. This legislation would allow the lists of those individuals who have died become public to better validate and clean voter registration roles.

Blake Youde testified **in opposition** of **H 659**. He represents Idaho Association of County Recorders and Clerks. Stating their concern with the interference with the Idaho's Public Information laws which protects Idahoan's of the public release of information. The concern is with needing additional information to verify the identity of the person. If there are multiple people with the same name living in roughly the same area, more information would be needed to accurately identify the person. For example, this information could be a birth date, driver's license, or address. In response to committee questions, Mr. Youde responded that the biggest concern is that of other individuals using personal information of deceased persons in an inappropriate or wrong manner.

Steve Madden, from Ada County testified **in support** of **H 659**. He stated voter integrity is of the utmost importance. He stated people who are casting votes with integrity have the right to cast their vote.

Chairman Crane gave the option to **HOLD H 659** in committee for one day to come to a better resolution.

MOTION:
