

STATEMENT OF PURPOSE

RS24827

The purpose of the amendment is to clarify that the basis of bearing must have two existing monuments. Surveyors need to occupy two monumented corners in order to properly align the coordinates of different surveys.

FISCAL NOTE

This legislation will have no fiscal impact to the general fund or the Board of Professional Engineers and Professional Land Surveyor's dedicated fund. It has no fiscal impact because the new language simply clarifies an existing requirement on surveying drawings. The Act does not create any new state program and does not compel any state action.
