

STATEMENT OF PURPOSE

RS26117

The proposed legislation would encourage the Idaho Transportation Department to initiate negotiated rulemaking in order to consolidate and streamline truck permits. The Idaho Transportation Department issues over 47,000 permits a year. These separate permits, which have grown considerably over the years, have become a significant burden to business, the Idaho Transportation Department and law enforcement. Consolidated permits would make it easier to do business for the trucking industry and would reduce the administrative burden on the Idaho Transportation Department and law enforcement to issue and enforce the permits respectively.

FISCAL NOTE

There would be no fiscal impact because the Idaho Transportation Department would not have to hire any additional personnel to initiate the negotiated rulemaking, which is already a regular activity performed by the Idaho Transportation Department.
