

STATEMENT OF PURPOSE

RS26776

The proposed legislation would exempt those working in facilities licensed by the Department of Health and Welfare, Division of Licensing and Certification, from being required to have a cosmetology license. The proposed exemption would include nurses and those who are delegated by a nurse to perform cosmetology services, as well as aides and volunteers who perform certain cosmetology services. The licensed facilities licensed by the Division of Licensing and Certification include: Nursing Homes, Assisted Living Facilities, Certified Family Homes, Intermediate Care Facilities and Hospitals. The exemption contained in the proposed legislation would simply codify what has been the standard in licensed facilities for decades.

FISCAL NOTE

Fiscal Impact: There would be no fiscal impact to the general fund, or the boards that regulate the licensed facilities or the Board of Barbers and Cosmetology because these unregulated providers of certain cosmetology services would continue to unregulated. In addition, there would be no impact to licensure fees because no new fees are being added or subtracted under the proposed legislation.
