

STATEMENT OF PURPOSE

RS27161

This bill is mostly comprised of definitions needed for a Student Based Funding Formula (SBFF), and some reporting of student enrollment data. In preparation for SBFF discussions during the 2020 legislative session school districts will report student enrollment figures in the fall of 2019, in addition to average daily attendance (ADA). Districts will report overall student enrollment numbers, along with enrollments in the sub-categories of special education, low income, English language learners, and gifted and talented. With this parallel data, both ADA and enrollment, the legislature and stakeholders will be able to better determine the fiscal impact per district of a new Student Based Funding Formula.

FISCAL NOTE

There will be no fiscal impact to any state funds. Local school districts will need to do some additional reporting of enrollment figures, and in determining how many students are in each enrollment sub-category.
