Dear Senators BURTENSHAW, Bayer, Nelson, and Representatives KAUFFMAN, Andrus, Toone:

The Legislative Services Office, Research and Legislation, has received the enclosed rules of the Idaho State Department of Agriculture:

IDAPA 02.00.00 - Rules of the Idaho State Department of Agriculture - Notice of Omnibus Rulemaking - Proposed Rule (Docket No. 02-0000-2100).

Pursuant to Section 67-454, Idaho Code, a meeting on the enclosed rules may be called by the cochairmen or by two (2) or more members of the subcommittee giving oral or written notice to Research and Legislation no later than fourteen (14) days after receipt of the rules' analysis from Legislative Services. The final date to call a meeting on the enclosed rules is no later than 11/15/2021. If a meeting is called, the subcommittee must hold the meeting within forty-two (42) days of receipt of the rules' analysis from Legislative Services. The final date to hold a meeting on the enclosed rules is 12/13/2021.

The germane joint subcommittee may request a statement of economic impact with respect to a proposed rule by notifying Research and Legislation. There is no time limit on requesting this statement, and it may be requested whether or not a meeting on the proposed rule is called or after a meeting has been held.

To notify Research and Legislation, call 334-4854, or send a written request to the address on the memorandum attached below

Legislative Services Office Idaho State Legislature

Serving Idaho's Citizen Legislature

MEMORANDUM

TO: Rules Review Subcommittee of the Senate Agricultural Affairs Committee and the House

Agricultural Affairs Committee

FROM: Deputy Division Manager - Katharine Gerrity

DATE: October 28, 2021

SUBJECT: Idaho State Department of Agriculture

IDAPA 02.00.00 - Rules of the Idaho State Department of Agriculture - Notice of Omnibus Rulemaking -

Proposed Rule (Docket No. 02-0000-2100)

Summary and Stated Reasons for the Rule

The Idaho State Department of Agriculture submits notice of proposed rule at IDAPA 02.00.00 - Rules of the Idaho State Department of Agriculture. According to the department, the rulemaking publishes these rule chapters previously submitted to and reviewed by the Legislature:

- 02.01.03, Airborne Control of Unprotected or Predatory Animals Rules;
- 02.02.02, Rules Governing Grading and Controlled Atmosphere Storage of Apples;
- 02.02.05, Rules Governing Stone Fruit Grades;
- 02.03.01, Rules Governing Pesticide Management Plans for Ground Water Protection;
- 02.04.04, Rules for Artificial Dairy Products;
- 02.04.13, Rules Governing Raw Milk;
- 02.04.14, Rules Governing Dairy Byproduct;
- 02.04.15, Rules Governing Beef Cattle Animal Feeding Operations;
- 02.04.17, Rules Governing Dead Animal Movement and Disposal;
- 02.04.20, Rules Governing Brucellosis;
- 02.04.21, Rules Governing the Importation of Animals;
- 02.04.23, Rules Governing Commercial Livestock Truck Washing Facilities;

Paul Headlee, Deputy Director Legislative Services Office Research & Legislation Budget & Policy Analysis Legislative Audits Information Technology

Statehouse, P.O. Box 83720
Boise, Idaho 83720–0054
Tel: 208–334–2475
legislature.idaho.gov

- 02.04.24, Rules Governing Tuberculosis;
- 02.04.25, Rules Governing Private Feeding of Big Game Animals;
- 02.04.27, Rules Governing Deleterious Exotic Animals;
- 02.04.29, Rules Governing Trichomoniasis;
- 02.04.30, Rules Governing Environmental and Nutrient Management; and
- 02.05.01, Rules Governing Produce Safety

Negotiated Rulemaking/Fiscal Impact

The department states that negotiated rulemaking was not conducted "because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare." However, the department adds that negotiated rulemaking was conducted outside of the omnibus rulemaking under a separate docket published in the April 2021 bulletin. That docket involved rules governing raw milk, rules governing the importation of animals, and rules governing deleterious exotic animals. The department indicates that no fee or charge is imposed or increased. No fiscal impact is anticipated.

The department also provided a section 22-101A, Idaho Code statement indicating whether any rules are broader in scope or more stringent than federal law or regulations, or that regulate an activity not regulated by the federal government:

- 02.01.03 Entire rule is more stringent than federal law or regulations
- 02.04.04 Entire rule regulates an activity not regulated by the federal government.
- 02.04.13 Entire rule regulates an activity not regulated by the federal government.
- 02.04.20 02.04.20.027; 02.04.028.03-04; 02.04.100-102; 02.04.20.200-204; and 02.04.20.250-256 all regulate activity not regulated by federal government. 02.04.20.029; 02.04.20.105; 02.04.20.120-123; 02.04.20.321; and 02.04.20.421 are broader in scope than federal laws or regulations.
- 02.04.21 02.04.21.100.03, 02.04.21.108, 02.04.21.201-202, 02.04.21.210, 02.04.21.300, 02.04.21.600-605, 02.04.21.650, 02.04.21.660-670, 02.04.21.710, 02.04.21.720 are all more stringent than federal laws or regulations. 02.04.21.104-105, 02.04.21.109, 02.04.21.260, 02.04.21.500 all regulate activity not regulated by federal government.
- 02.04.25 Entire rule regulates activity not regulated by the federal government.
- 02.04.27 Entire rule regulates activity not regulated by the federal government.
- 02.04.29 Entire rule regulates activity not regulated by the federal government.

Statutory Authority

The rulemaking appears to be authorized pursuant to sections 22-102A, 22-103, 22-107, 22-110, 22-4903 22-702, 22-703, 22-802, 22-803, 22-3418, 22-3419, 22-3421, 22-4903, 22-5404, 25-203, 25-207A, 25-207B,

25-212, 25-237, 25-305, 25-401, 25-601, 25-3520, 25-3704, 25-3802, 25-3903, 25-3904, 25-4012, 37-1101, 37-302, 37-303, 37-305, 37-316, 37-401, 37-402, 37-405, 37-516, 37-603, and 67-6529F, Idaho Code.

cc: Department of Agriculture Lloyd Knight

*** PLEASE NOTE ***

Per the Idaho Constitution, all administrative rules may be reviewed by the Legislature during the next legislative session. The Legislature has 3 options with this rulemaking docket: 1) Approve the docket in its entirety; 2) Reject the docket in its entirety; or 3) Reject the docket in part.

IDAPA 02 - DEPARTMENT OF AGRICULTURE

DOCKET NO. 02-0000-2100

NOTICE OF OMNIBUS RULEMAKING - PROPOSED RULEMAKING

AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking procedures. The action is authorized pursuant to Sections 22-102A, 22-103(7), 22-103(15), 22-103(20), 22-107, 22-110, 22-4903 22-702, 22-703, 22-802, 22-803, 22-3418, 22-3419, 22-3421, 22-4903, 22-5404, 25-203, 25-207A, 25-207B, 25-212, 25-237, 25-305, 25-401, 25-601, 25-3520, 25-3704, 25-3802, 25-3903, 25-3904, 25-4012, 37-1101(5), 37-302, 37-303, 37-305, 37-316, 37-401, 37-402, 37-405, 37-516, 37-603, 37-305, 37-305, 37-305, 37-305, 37-402, 37-405, 37-516, 37-603, 37-305, 1101(5), and 67-6529F(4), Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This proposed rulemaking publishes the following rule chapters previously submitted to and reviewed by the Idaho Legislature under IDAPA 02, rules of the Department of Agriculture:

IDAPA 02

- 02.01.03, Airborne Control of Unprotected or Predatory Animals Rules;
- 02.02.02, Rules Governing Grading and Controlled Atmosphere Storage of Apples;
- 02.02.05, Rules Governing Stone Fruit Grades;
- 02.03.01, Rules Governing Pesticide Management Plans for Ground Water Protection;
- 02.04.04, Rules for Artificial Dairy Products;
- 02.04.13, Rules Governing Raw Milk;
- 02.04.14, Rules Governing Dairy Byproduct;
- 02.04.15, Rules Governing Beef Cattle Animal Feeding Operations;
- 02.04.17, Rules Governing Dead Animal Movement and Disposal;
- 02.04.20, Rules Governing Brucellosis;
- 02.04.21, Rules Governing the Importation of Animals;
- 02.04.23, Rules Governing Commercial Livestock Truck Washing Facilities;
- 02.04.24, Rules Governing Tuberculosis;
- 02.04.25, Rules Governing Private Feeding of Big Game Animals; 02.04.27, Rules Governing Deleterious Exotic Animals;
- 02.04.29, Rules Governing Trichomoniasis;
- 02.04.30, Rules Governing Environmental and Nutrient Management; and
- 02.05.01, Rules Governing Produce Safety.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: None.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars (\$10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2022 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rule(s) being reauthorized by this rulemaking.

IDAHO CODE SECTION 22-101A STATEMENT: Pursuant to 22-101A(1), for any rule promulgated or adopted by the director which is broader in scope or more stringent than federal law or regulations, or which regulates an activity not regulated by the federal government, the director shall identify the portions of the adopted rule that are broader in scope or more stringent than federal law or rules, or which regulate an activity not regulated by the federal government. The following table delineates rules which are broader in scope, more stringent than federal law or regulations, or regulate an activity not regulated by the federal government:

IDAPA	22-101A
02.01.03	Entire rule is more stringent than federal law or regulations.
02.04.04	Entire rule regulates an activity not regulated by the federal government.
02.04.13	Entire rule regulates an activity not regulated by the federal government.
02.04.20	02.04.20.027; 02.04.028.03-04; 02.04.100-102; 02.04.20.200-204; and 02.04.20.250-256 all regulate activity not regulated by federal government. 02.04.20.029; 02.04.20.105; 02.04.20.120-123; 02.04.20.321; and 02.04.20.421 are broader in scope than federal laws or regulations.
02.04.21	02.04.21.100.03, 02.04.21.108, 02.04.21.201-202, 02.04.21.210, 02.04.21.300, 02.04.21.600-605, 02.04.21.650, 02.04.21.660-670, 02.04.21.710, 02.04.21.720 are all more stringent than federal laws or regulations. 02.04.21.104-105, 02.04.21.109, 02.04.21.260, 02.04.21.500 all regulate activity not regulated by federal government.
02.04.25	Entire rule regulates activity not regulated by the federal government.
02.04.27	Entire rule regulates activity not regulated by the federal government.
02.04.29	Entire rule regulates activity not regulated by the federal government.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

Negotiated rulemaking conducted outside of this omnibus rulemaking under docket 02-ZBRR-2101 published in the April 7, 2021 Idaho Administrative Bulletin, Vol. 21-4, pages 13-15, and affects the following rule chapters included in this proposed rulemaking:

- 02.04.13 Rules Governing Raw Milk;
- 02.04.21 Rules Governing the Importation of Animals;
- 02.04.27 Rules Governing Deleterious Exotic Animals

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the proposed rules, contact Lloyd Knight, Rules Review Officer, at (208)332-8664 or rulesinfo@isda.idaho.gov.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

DATED this October 20, 2021.

Lloyd Knight, Rules Review Officer Idaho Department of Agriculture 2270 Old Penitentiary Road P.O. Box 7249

SUBCHAPTER A - APPLE GRADES

120. GRADES.

01. Idaho Extra Fancy . "Idaho Extra Fancy" consists of apples of one (1) variety that are mature	
not overripe except that Red Delicious and Delicious are not further advanced in maturity than "Firm ripe" as def	fined
in Subsection 010.05.c. All "Idaho Extra Fancy" apples are to be carefully hand-picked, clean, fairly well form	med;
free from decay, internal browning, internal breakdown, scald, bitter pit, scab, Jonathan spot, freezing injury, vis	sible
water core, and broken skins and bruises except those that are slight and incident to proper handling and packing.	. The
apple is also free from injury caused by smooth net-like russeting, sunburn or sprayburn, limb rubs, hail, dro	ught
spots, scars, disease, insects, or other means; and free from damage by smooth solid, slightly rough or ro	ough
russeting, or stem or calyx cracks, and free from damage by invisible water core after January 31st of the	year
following the year of production. Each apple of this grade has the amount of color specified in Section 121 for	r the
variety. ()

- **102. Idaho Fancy.** "Idaho Fancy" consists of apples of one (1) variety that are mature but not overripe except that Red Delicious and Delicious are not further advanced in maturity than "Firm ripe" as defined in Subsection 010.05.c. All "Idaho Fancy" apples shall be carefully hand-picked, clean, fairly well formed; free from decay, internal browning, internal breakdown, bitter pit, Jonathan spot, scald, freezing injury, visible water core, and broken skins and bruises except those that are incident to proper handling and packing. The apples are also free from damage caused by russeting, sunburn or sprayburn, limb rubs, hail, drought spots, scars, stem or calyx cracks, disease, insects, invisible water core after January 31st of the year following the year of production, or damage by other means. Each apple of this grade has the amount of color specified in Section 121 for the variety.
- 03. Idaho No. 1. The requirements of this grade are the same as for "Idaho Fancy" except for color, russeting, and invisible water core. In this grade less color is required for all varieties with the exception of the yellow and green varieties other than Golden Delicious. Apples of this grade are free from excessive damage caused by russeting, which means that apples meet the russeting requirements for "Idaho Fancy" as defined under the definitions of "damage by russeting," except the aggregate area of an apple that may be covered by smooth net-like russeting does not exceed twenty-five percent (25%); and the aggregate area of an apple that may be covered by smooth solid russeting does not exceed ten percent (10%): Provided, that in the case of the Yellow Newtown or similar varieties the aggregate area of an apple that may be covered with smooth solid this grade has the amount of color specified in Subsection 010.05.c. for the variety. There is no requirement in this grade pertaining to invisible water core.
- a. Idaho No. 1 Early consists of apples that meet the requirements of Idaho No.1 grade except as to color and maturity, and meet a minimum size requirement. Apples of this grade have no color requirements, need not be mature, grade is provided for varieties such as Duchess, Gravenstein, Red June, Twenty Ounce, Wealthy, Williams, Yellow Transparent, and Lodi, or other varieties that are normally marketed during the summer months.
- **b.** Idaho No. 1 Hail consists of apples that meet the requirements of Idaho No. 1 grade except that hail marks where the skin has not been broken, and well healed hail marks where the skin has been broken, are permitted, provided the apples are fairly well formed.
- **04. Idaho Utility**. "Idaho Utility" consists of apples of one (1) variety that are mature but not overripe, carefully hand-picked, not seriously deformed, free from decay, internal browning, internal breakdown, scald, and freezing injury. The apples are also free from serious damage caused by dirt or other foreign matter, broken skins, bruises, russeting, sunburn or sprayburn, limb rubs, hail, drought spots, scars, stem or calyx cracks, visible water core, disease, insects, or other means.

05.	Combination Grades.	()
a.	Combinations of the above grades may be used as follows:	()
i.	Combination Idaho Extra Fancy and Idaho Fancy;	()

Section 120 Page 28

ii	Combination Idaho Fancy and Idaho No. 1;	(
iii.	Combination Idaho No. 1 and Idaho Utility;	(,

b. Combinations other than these are not permitted in connection with the Idaho apple grades. When combination grades are packed, at least fifty percent (50%) of the apples in any lot will meet the requirements of the higher grade in the combination.

121. COLOR REQUIREMENTS.

In addition to the requirement specified for the grades set forth in Subsections 120.01 through 120.05, apples of these grades have the percentage of color specified for the variety in Table I appearing below. For the solid red varieties, the percentage stated refers to the area of the surface that must be covered with a good shade of solid red characteristic of the variety: Provided, that an apple having color of a lighter shade of solid red or striped red than that considered as a good shade of red characteristic of the variety may be admitted to a grade, provided it has sufficient additional area covered so that the apple has as good an appearance as one with the minimum percentage of good red characteristic of the variety required for the grade. For the striped red varieties, the percentage stated refers to the area of the surface in which the stripes of a good shade of red characteristic of the variety predominates over stripes of lighter red, green, or yellow. However, an apple having color of a lighter shade than that considered as a good shade of red characteristic of the variety, may be admitted to a grade, provided it has sufficient additional area covered, so that the apple has as good an appearance as one with the minimum percentage of stripes of a good red characteristic of the variety required for the grade. Faded brown stripes are not considered as color except in the case of the Gary Baldwin variety. Color standards will be determined by Official USDA Visual Aids for apples. APL-CC-1

Table 1 – Color Requirements for Specified Idaho Grades of Apples by Variety

VARIETY	IDAHO EXTRA FANCY PERCENT	IDAHO FANCY PERCENT	IDAHO NO. 1 PERCENT

- (4) Bonum, Early McIntosh, Limbertwig, Milton, Nero, Paragon, Melba.
- (5) Tinge of color.
- (6) Red Astrachan, Smokehouse, Summer Rambo, Dudley.
- (7) Blush Cheek.
- (8) None.
- (9) Characteristic ground color.
- (10) Seventy-five (75%) percent or more of the surface of the apple shall show white or light green predominating over the green color.

Section 121 Page 30

⁽²⁾ When Red Sport varieties are specified as such, they shall meet the color requirements specified for Red Sport varieties.

⁽³⁾ Haralson, Kendall, Macoun, Snow (Fameuse).

122. UNCLASSIFIED DESIGNATION.

"Unclassified" consists of apples that have not been classified in conformity with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards, but is provided as a designation to show that no definite grade has been applied to the lot.

123. TOLERANCES.

In order to allow for variations incident to proper grading and handling in each of the foregoing grades, the following tolerances are provided as specified:

01.	Defects.	()

- a. Idaho Extra Fancy, Idaho Fancy, Idaho No. 1, Idaho No. 1 Early and Idaho No. 1 Hail grades: Ten percent (10%) of the apples in any lot may fail to meet the requirements of the grade, but not more than one-half (1/2) of this amount, or five percent (5%), is allowed for apples that are seriously damaged, including therein not more than one percent (1%) for apples affected by decay or internal breakdown.
- **b.** Idaho Utility grade: Ten percent (10%) of the apples in any lot may fail to meet the requirements of the grade, but not more than one-half (1/2) of this amount, or five percent (5%), is allowed for apples that are seriously damaged by insects, and including in the total tolerance not more than one percent (1%) for apples affected by decay or internal breakdown.
- **02. Applying Tolerances to Combination Grades.** When applying tolerances to combination grades, no part of any tolerance is allowed to reduce, for the lot as a whole, the fifty percent (50%) of apples of the higher grade required in the combination but individual containers will not have less than forty percent (40%) of the higher grade.
- **03. Size.** When size is designated by the numerical count for a container, not more than five percent (5%) of the apples in the lot may vary more than one fourth (1/4) inch in diameter. When size is designated by minimum or maximum diameter, not more than five percent (5%) of the apples in any lot may be smaller than the designated minimum and not more than ten percent (10%) may be larger than the designated maximum.
- **04. Firmness**. Not more than five percent (5%) of the apples in any lot of Red Delicious and Delicious varieties can be further advanced in maturity than "Firm ripe" as defined in Subsection 010.05.c. Provided, the Idaho No. 1, Idaho No. 1 Hail, and Idaho Utility grades are exempt from this requirement.

124. APPLICATION OF TOLERANCES.

The contents of individual samples in the lot are subject to the following limitation, provided that the averages for the entire lot are within the tolerances specified for the grade:

- **01.** Samples That Contain More Than Ten (10) Pounds. Not more than one and one-half (1 1/2) times a specified tolerance of ten percent (10%) or more and not more than double a tolerance of less than ten percent (10%), except that at least one (1) apple that is seriously damaged by insects or affected by decay or internal breakdown may be permitted in any sample.
- **O2.** Samples That Contain Ten (10) Pounds or Less. Not over ten percent (10%) of the sample may have more than three (3) times the tolerance specified, except that at least one (1) defective apple may be permitted in any sample: Provided, that not more than one (1) apple or more than six percent (6%) (whichever is the larger amount) may be seriously damaged by insects or affected by decay or internal breakdown.

125. CALCULATION OF PERCENTAGES.

- 01. When Numerical Count is Marked On Container. Percentages are calculated on the basis of count.
- **02.** When Minimum Diameter or Minimum and Maximum Diameters are Marked on Container. Percentages are calculated on the basis of weight.

Section 122 Page 31

)

03. Apples are in Bulk. Percentages are calculated on the basis of weight.

126. CONDITION AFTER STORAGE OR TRANSIT.

Decay, scald, or any other deterioration that may have developed on apples after they have been in storage or transit are considered as affecting condition and not the grade.

127. -- 129. (RESERVED)

130. PACKING REQUIREMENTS.

- **01. Tray or Cell Packed.** Apples in cartons are arranged according to approved and recognized methods. Packs are to be at least fairly tight or fairly well filled.
- a. "Fairly tight" apples are of the proper size for molds or cell compartments in which they are packed, and that molds or cells are filled in such a way that no more than slight movement of apples within molds or cells is possible. The top layer of apples, or any pad or space filler over the top layer of apples is to be not more than three-fourths (3/4) inch below the top of the carton.
- b. "Fairly well filled" means that the net weight of apples in containers ranging from two thousand one hundred cubic inches (2,100 cu. in.) to two thousand nine hundred cubic inches (2,900 cu. in.) capacity is not less than thirty seven (37) pounds for Courtland, Gravenstein, Jonathan, McIntosh and Golden Delicious varieties and not less than forty (40) pounds for all other varieties.
- **02.** Closed Cartons. Apples not tray or cell packed are fairly well filled or the pack is sufficiently tight to prevent any appreciable movement of the apples.
- **03.** Wooden Boxes or Baskets Packs. Sufficiently tight to prevent any appreciable movement of apples within containers when the packages are closed. Each wrapped apple is to be completely enclosed by its individual wrapper.
- **04.** Reasonably Representative. Apples on the shown face of any container are reasonably representative in size, color, and quality of the contents.
- **05. Tolerances**. In order to allow for variations incident to proper packing, not more than ten percent (10%) of the containers in any lot may fail to meet these requirements.

131. MARKING REQUIREMENTS.

The numerical count or the minimum diameter of the apples packed in a closed container is indicated on the container.

- **01. When Numerical Count is not Shown**. The minimum diameter will be plainly stamped, stenciled, or otherwise marked on the container in terms of whole inches, or whole inches and not less than one eighth (1/8) inch fractions thereof.
- **02.** The Word "Minimum". Or its abbreviation, when following a diameter size marking, means that the apples are of the size marked or larger.

132. SCORABLE DEFECTS.

- **01. Injury**. Any specific defect defined in this subsection or an equally objectionable variation of any one (1) of these defects, any other defect, or any combination of defects, that more than slightly detracts from the appearance or the edible or shipping quality of the apple. The following specific defects are considered as injury:
- a. Russeting in the stem cavity or calyx basin that cannot be seen when the apple is placed stem end or calyx end down on a flat surface, is not considered in determining whether or not an apple is injured by russeting.

Section 126 Page 32

IDAPA 02.02.02 Grading & Controlled Atmosphere Storage of Apples

Smooth net-like russeting outside of the stem cavity or calyx basin is considered as injury when an aggregate area of more than ten percent (10%) of the surface is covered, and the color of the russeting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous net-like russeting when the appearance is affected to a greater extent than the above amount permitted.

	SUBCHAPTER	B – CONTROLL	ED ATMOSPH	ERE STORAGE		

220. APPLES, CONTROLLED ATMOSPHERE REGISTRATION.

- **01. Registration**. Any person who owns or operates a controlled atmosphere room or storage building for apples in Idaho, and any person who engages in this State in the business of packing or repacking apples so treated in this State or any other state and who intends to, or does, represent such apples as having been exposed to "controlled atmosphere" storage, shall register with the Director on a form prescribed by the Director.
- **Registration Period**. The registration period for owners or operators of controlled atmosphere rooms or storage buildings in this State commences on September 1 and end on August 31 of each year, and for packers or repackers of apples that have been held in a controlled atmosphere room or storage building in this State or in any other state, the registration period extends for a period not to exceed one (1) year. Owners or operators of such rooms or storage buildings shall register on or before September 1 of each year.
- **03. Interstate Registration**. Any person who owns or operates a controlled atmosphere room or storage building located outside of Idaho or who engages at a place outside of this State in the business of packing or

Section 138 Page 38

repacking apples that have been held in controlled atmosphere storage and who intends to, or does, market in the state of Idaho apples so treated and represented as having been exposed to "controlled atmosphere" storage, shall register with the Director in the same manner as required of any person within the State unless such person has registered with the proper authorities in the state of origin and has been assigned a comparable registration number or CA identification under authority of laws or rules of such state that at least conform to the provisions of these rules.

;; (

- **04. Written Agreement**. The Director will assign each approved registrant a registration number preceded by the letters CA. The Director shall require from each applicant for registration, an agreement in writing in the form required by the Director that the apples so treated or packed or repacked by said applicant will be or have been kept in a room or storage building with not more than five percent (5%) oxygen for a minimum of not less than forty-five (45) days for Gala and Jonagold varieties and not less than sixty (60) days for other apples, and that the oxygen level in such room or storage building will be or has been reduced to five percent (5%) within twenty (20) days after the date of sealing of the storage room, and including any other pertinent facts as may be required by the Director to assure that the apples in question have been so treated.
- **05. Refusal Upon Violation**. The Director may refuse to approve an application for registration and refuse to issue a registration number if the applicant previously has violated any of the provisions of these rules, or has failed or refused to furnish the information or evidence required by these rules.
- **Required Air Components Determinations**. Each owner or operator of a controlled atmosphere room or storage building in this state shall make the required air components determinations as to the percentage of carbon dioxide and oxygen and temperature at least once each day and maintains a record in the form as required by the Director of Agriculture, including the name and address of the owner or operator, room number or numbers, room capacity, lot identification, quantity in each lot, date of sealing, date of opening; a daily record of date and time of test, percentage of carbon dioxide, percentage of oxygen and the temperature.
- **07. Written Reports**. Each owner or operator of a controlled atmosphere room or storage building in this state will submit to the Idaho Director of Agriculture, within ten (10) days after the date of sealing, a written report pertaining to each room showing the owner's room number, or numbers, date of sealing, and variety and quantity of apples contained therein.
- **08. Maintaining Identity**. The identity of all apples represented as having been exposed to "controlled atmosphere" storage will be maintained from the original room or storage building where they were treated through the various channels of trade to the retailer.
- **109. Investigations.** Enforcing officers may investigate and examine records and invoices relating to any transactions in order to determine the identity of apples represented as having been exposed to controlled atmosphere storage and in this connection gives consideration to the presence of CA storage registration numbers on invoices submitted in transactions by the owners or operators and a combination of both the CA storage and packer or repacker's CA registration number on invoices submitted in transactions by said packer or repacker. ()

221. APPLES REPRESENTED AS HAVING BEEN EXPOSED TO "CONTROLLED ATMOSPHERE" STORAGE.

- **01. Registration Number -- Owner/Operator**. Each container and consumer package of such apples moved into the channels of trade by the owner or operator of a controlled atmosphere room or storage building located in Idaho or by any other person, will be marked with said owner or operator's assigned registration number.
- **02. Registration Number -- Packer/Repacker**. Each container and consumer package of such apples received from an owner or operator of a controlled atmosphere room or storage building located either in Idaho or in another state and that are packed or repacked by another person in this state, will be marked with the said packer or repacker's assigned registration number.
- 03. Controlled Atmosphere (CA) Identification. Each container and consumer package of such apples moved into the channels of trade in Idaho by the owner or operator of a controlled atmosphere room or storage

Section 221 Page 39

IDAPA 02.02.02 Grading & Controlled Atmosphere Storage of Apples

building located outside of Idaho or by any other person or by a packer or repacker of such apples engaged in such business outside of Idaho will be marked with the proper registration number or CA identification. Such registration number or CA identification is the registration number assigned by the Director to such owner or operator of a CA plant or to such packer or repacker as the case may be or a comparable registration number of identification assigned under authority of laws or regulations of another state that at least conform to the provisions of Subsection 200.04 above.

- **04. Labeling Requirements.** The registration number or other identification required to be marked on containers is in letters or figures at least one-half (1/2) inch in height, and all such markings are clear and conspicuous and in a place readily visible to the purchaser, and shall meet the rule requirements of Sections 22-801 and 22-802, Idaho Code.
- **05. Inspection and Certification**. All apples sold as Controlled Atmosphere apples must be inspected and certified as to grade and condition and be marked with a state lot number in addition to the CA number.
- **06. Conditions and Standards**. At the time of shipment, all apples shipped and marked with a CA number will meet the U.S. condition and maturity standards for Export.
- **07. Reinspection**. Apples not shipped within a period of two (2) weeks after inspection and certification must be reinspected.
- **08. Failure to Meet Requirements.** Failure to meet any one of the requirements noted above will prohibit such apples from being sold as CA storage apples or the containers marked as such.

410. REPEALING SPECIFIC PESTICIDE AREAS.

- **01. Repealing an Area of Pesticide Concern.** The Director may repeal or reduce the size of an area of pesticide concern in response to pesticide contamination in ground water if all the conditions in Subsection 410.01 are met:
- a. Tests on at least three (3) consecutive ground water samples, drawn from each well site in the area of pesticide concern at which the concentration of a pesticide and its metabolites previously were found at twenty percent (20%) to fifty percent (50%) of the reference point, show that the concentration at the well sites has fallen to and remains less than twenty percent (20%) of the reference point. The three (3) consecutive samples shall be collected at each well site at intervals of at least six (6) months, with the first sample being collected at least six (6) months after the effective date of the area of pesticide concern designation. A monitoring well approved by the Director may be substituted for any well site which is no longer available for testing.
- **b.** Tests conducted at other well sites in the area of pesticide concern during the same retesting period, if any, reveal no other concentrations of the pesticide or its metabolites that exceed twenty percent (20%) of the reference point; and
- c. The Director determines, based on credible scientific evidence, that use of a pesticide product in the area of pesticide concern is not likely to cause a renewed detection between twenty percent (20%) to fifty percent (50%) of the reference point.
- **02.** Repealing an Area of Pesticide Restriction. The Director may repeal or reduce the size of an area of pesticide restriction in response to ground water pesticide contamination if all the conditions in Subsection 410.02 are met:
- a. Tests on at least three (3) consecutive ground water samples, drawn from each well site in the area of pesticide restriction at which the concentration of a pesticide and its metabolites previously were found at fifty percent (50%) to less than one hundred percent (100%) of the reference point, show that the concentration at the well sites has fallen to and remains less than fifty percent (50%) of the reference point. The three (3) consecutive samples shall be collected at each well site at intervals of at least six (6) months, with the first sample being collected at least six (6) months after the effective date of the area of the pesticide restriction designation. A monitoring well approved by the Director may be substituted for any well site which is no longer available for testing. As areas of pesticide restriction are repealed, the area automatically becomes an area of pesticide concern;
- **b.** Tests conducted at other well sites in the area of pesticide restriction during the same retesting period, if any, reveal no other concentrations of the pesticide or its metabolites that exceed fifty percent (50%) of the reference point; and
- c. The Director determines, based on credible scientific evidence, that use of a pesticide product in the area of pesticide restriction is not likely to cause a renewed exceedance of fifty percent (50%) of the reference point.
- **03. Repealing an Area of Pesticide Use Prohibition**. The Director may repeal or reduce the size of an area of pesticide use prohibition in response to ground water pesticide contamination if all the conditions in Subsection 410.03 are met:
- a. Tests on at least three (3) consecutive ground water samples, drawn from each well site in the prohibition area at which the concentration of a pesticide and its metabolites previously attained or exceeded the reference point, show that the concentration at that well site has fallen to and remains less than fifty percent (50%) of the reference point. The three (3) consecutive samples shall be collected at each well site at intervals of at least six (6) months, with the first sample being collected at least six (6) months after the effective date of the pesticide use prohibition designation. A monitoring well approved by the Director may be substituted for any well site which is no longer available for testing. As areas of pesticide prohibition are repealed, the area automatically becomes an area of

The dairy farm	D SHARE PROGRAMS. To reference responsible for a herd participating in a herd share program must register the farm or dairy timent and is subject to all the provisions of Section 37-1101, Idaho Code.
041 049.	(RESERVED)
	MIT ENFORCEMENT. plies to the enforcement of Raw Milk Permits. ()
01.	Permit Suspension. The Department may suspend a permit whenever it has reason to believe that

Section 020 Page 59

IDAHO ADMINISTRATIVE CODE Department of Agriculture

IDAPA 02.04.13 Rules Governing Raw Milk

a public health hazard exists, whenever the permit holder has violated any of the requirements of these rules, or whenever the permit holder has interfered with the Department in the performance of its duties.

- a. Prior to suspending a permit, the Department will serve a written notice of intent to suspend the permit that specifies the alleged violation(s). Reasonable opportunity to correct the violation(s) will be given before the permit suspension order becomes effective. A permit suspension will remain in effect until the violation has been corrected to the satisfaction of the Department.
- **b.** Whenever the raw milk or raw milk products create or appear to create an imminent hazard to the public health, the Department may immediately suspend the permit without the prior notice procedure set forth in these rules. The Department will provide notice and opportunity for hearing after the suspension, in accordance with Title 67, Chapter 52, Idaho Code.
- **c.** Upon written request by any person whose permit has been suspended, or by any person who has been served with a notice of intent to suspend, the Department will proceed to a hearing and, upon evidence presented at such hearing, may affirm, modify, or rescind the suspension or intention to suspend. ()
- **d.** The Department may forego permit suspension provided the raw milk or raw milk products in violation are not sold, offered for sale, or distributed for human consumption.
- **02. Permit Revocation.** If repeated violations occur, the Department may revoke a permit after reasonable notice and an opportunity for a hearing have been given to the permit holder. This section is not intended to preclude the institution of court action.
- **03. Permit Reinstatement**. Any raw milk producer whose permit has been suspended or revoked may make written application for the reinstatement of the permit.
- **a.** When the permit has been suspended due to a violation of a requirement, the application for reinstatement must show that the violation has been corrected for the permit to be reinstated.

NEW OR MODIFIED BEEF CATTLE ANIMAL FEEDING OPERATIONS.

Each new or modified beef cattle AFO shall design and construct wastewater storage and containment facilities completed after July 1, 2000, in accordance with the engineering standards and specifications contained in the Natural Resources Conservation Service Agricultural Waste Management Field Handbook, Appendix 10D or the

IDAPA 02.04.15 Beef Cattle Animal Feeding Operations

American Society of Agricultural Engineers Standard EP393.3, or other equally protective standards approved by the Director.

022. -- 029. (RESERVED)

030. NUTRIENT MANAGEMENT.

Each beef cattle AFO shall submit a NMP for land owned or controlled by the operator, which conforms to the nutrient management standard and addresses odors generated in excess of odors normally associated with raising beef

nutrient management standard and addresses odors generated in excess of odors normally associated with raising beef cattle in Idaho, to the Director for approval. Following department review and approval, the plan, and all copies of the plan, shall be returned to the operation and maintained on site.

- **01.** New Beef Cattle Animal Feeding Operations. Any new beef cattle AFO shall not operate prior to the Director's approval of a NMP. The Director shall respond to or approve such plan within forty-five (45) days of submission.
- **02. Implementation of a Nutrient Management Plan**. Failure to implement an approved NMP is a violation of these rules.

031. NUTRIENT MANAGEMENT PLAN RETENTION.All approved NMPs shall be maintained on site at the beef cattle AFO and available to the Administrator upon request.

032. NUTRIENT MANAGEMENT RECORDS.

The operators of beef cattle AFOs shall keep complete and accurate records of:

- **01.** Land Application. The dates and amounts of any manure or process wastewater applied on land owned or controlled by the operator.
- **O2. Manure Transferred to Another Person**. The name and address of any third party that receives manure or process wastewater from the operation, including the dates of the transfer and the amount of manure or process wastewater transferred.
- **03. Records Retention**. All records shall be maintained for a period of five (5) years and presented to the Administrator upon request.

033. -- 039. (RESERVED)

040. DESIGNATION OF BEEF CATTLE ANIMAL FEEDING OPERATIONS.

O1. Designation of Animal Feeding Operations. The Director, on a case by case basis, may designate any AFO that confines slaughter and feeder cattle as a beef cattle AFO if, after an inspection, the Director determines that the AFO is a significant contributor of pollution to waters of the state. The designation is provided to the operator of the AFO in writing setting forth the basis for the Director's decision. When designated, these operations shall be considered existing beef cattle AFOs. The Director considers the following factors when making such designation:

a. Size of the AFO and the amount of manure, process wastewater, and runoff reaching waters of the state;

- **b.** Location of the AFO relative to waters of the state; ()
- c. Means of conveyance of manure, process wastewater, and runoff into waters of the state; and
- **d.** Slope, vegetation, precipitation, and other factors affecting the likelihood or frequency of discharge of manure, process wastewater, or runoff into waters of the state.

Section 030 Page 69

IDAHO ADMINISTRATIVE CODE Department of Agriculture

IDAPA 02.04.15 Beef Cattle Animal Feeding Operations

02.	Redesignation of a Beef Cattle Animal Feeding Operation. Upon request by the operation	rator, the
Director will r	redesignate a facility previously designated under Section 040, if the facility is no longer a si	gnificant
contributor of	of pollution to waters of the state. Such redesignation is provided to the operator in writing.	()

041. -- 049. (RESERVED)

050. AUTHORITY TO INSPECT.

The Director is authorized to inspect any AFO that confines slaughter or feeder cattle in accordance with Title 22, Chapter 49, Idaho Code, to ensure compliance with these rules. The Director may comply with the operation's biosecurity protocol so long as the protocol does not inhibit reasonable access to:

- **O1.** Entry. Enter and inspect at reasonable times the premises or land application site(s) of a beef cattle AFO.
 - **O2.** Access to Records. Review or copy any records that must be kept in accordance with these rules.
- **03. Sample or Monitor.** Sample or monitor at reasonable times, substances or parameters directly related to compliance with these rules or an IPDES permit.

051. INSPECTIONS.

Each beef cattle AFO shall be inspected annually or at intervals sufficient to determine that the facility is being operated and managed to prevent an unauthorized discharge. Inspections may include evaluating effectiveness of best management practices, collecting samples, taking photographs/videos of facilities or collecting other information as necessary. An official inspection report form is completed and a copy provided to the operator.

052. ADMINISTRATION OF IPDES PROGRAM.

The Director of the Department of Agriculture and the Director of the Department of Environmental Quality shall, as appropriate, establish an agreement relating to the administration of an IPDES program that recognizes the expertise of the Department of Agriculture.

053. COMPLIANCE WITH IDAHO POLLUTANT DISCHARGE ELIMINATION SYSTEM RULES.

The Department of Environmental Quality shall be solely responsible and authorized to determine whether the discharge of pollutants from a beef cattle feeding operation is required to be authorized by an IPDES permit. The provisions of this rule do not define when a beef cattle feeding operations is required to obtain a permit for a discharge, do not exempt a beef cattle feeding operation from permitting requirements for such discharges or alter the authority of DEQ with respect to such discharges.

These rules apply to all cattle, domestic bison, swine, and domestic cervidae located within, imported into, transported through or exported from the state of Idaho.

The official brucellosis eradication program will be supervised by full-time state or federal veterinarians.

Section 011 Page 78

022. INSPECTIONS.

In order to ascertain compliance with this chapter, state and federal animal health officials are authorized to	inspect
animals, records, premises and other areas where cattle, domestic bison, swine, domestic cervidae and other	animals
are held or kept.	()

- **01. Entering Premises.** In order to conduct activities authorized by this chapter, state or federal animal health officials are authorized to enter premises, other areas, or conveyances in the state where cattle, domestic bison, swine, domestic cervidae or other brucellosis susceptible animals are held or kept. State or federal animal health officials will attempt to notify the owner or operator of the premises or conveyance prior to conducting an inspection.
- **102. Inspecting Records.** To ensure compliance with the provisions of this chapter, state or federal animal health officials are authorized to have access to, inspect, review, and copy any records deemed necessary during normal business hours. State or federal animal health officials will attempt to notify the owner or operator of the premises where the records are located prior to inspecting records.
- **03. Emergencies**. In the event of an emergency, as determined by the Administrator, the notification requirements of this section may be waived.

023. LABORATORIES.

Biological samples tested for brucellosis shall be tested only by official state-federal animal health laboratories or by persons authorized by the Administrator, and USDA/VS.

- **01. Blood, Milk, Tissue, or Other Samples**. All biologic samples shall be collected and tested in accordance with the UM&R for that species.
- **02. Authorized Persons**. The Administrator may authorize qualified persons to conduct serologic tests for brucellosis. All samples initially tested at other than official state-federal animal health laboratories shall be promptly submitted to the official state-federal animal health laboratory for confirmation of test results. ()
- **03. Retest of Reactors.** Within three days (3) days after being notified of the results of an initial herd blood test, the owner may request an additional blood test on reactors, such test shall be made at owner's expense. The request shall be based on sound epidemiologic evidence, and all animals shall remain under herd quarantine. The request shall be made to the Administrator, who will approve or deny the request.
- **04.** Reclassification of Reactors. Any reclassification of reactor animals shall be in accordance with the UM&R for that species.

024. REPORTING.

Brucellosis activities conducted privately or as part of the official brucellosis eradication program shall be reported to the Administrator.

- **01. Test Results**. All test results shall be reported immediately. ()
- **02. Vaccinations.** All vaccination reports shall be submitted on a form approved by the Administrator within fifteen (15) days of date of vaccination.
- **03. Disease**. All owners of animals and veterinarians shall report evidence of brucellosis infection to the Administrator immediately.

025. QUARANTINES.

All cattle, domestic bison, swine and domestic cervidae animals or herds determined to be exposed to or infected with brucellosis shall be quarantined.

01. Infected Herds. Infected herds or animals shall remain under quarantine until such time that the herd has been completely depopulated and the premise has been cleaned and disinfected as provided by the

100. OFFICIAL VACCINATION REQUIRED FOR CATTLE AND DOMESTIC BISON.
All female cattle and domestic bison utilized for breeding, dairy, or grazing purposes shall be officially vaccinated for

Section 031 Page 82

IDAHO ADMINISTRATIVE CODE Department of Agriculture

IDAPA 02.04.20 Rules Governing Brucellosis

brucellosis. Utilization of female cattle or domestic bison, which are not officially vaccinated, for breeding, dairy or grazing purposes is a violation of this chapter.

101.	OFFICIAL VACCINATION.	
Female o	cattle and domestic bison may be officially vaccinated through one (1) of the following methods:	(

- 01. Calfhood Vaccination. Female cattle and domestic bison native to the state of Idaho or imported into the state of Idaho shall be calfhood vaccinated while not less than one hundred twenty (120) days of age or more than three-hundred sixty-five (365) days of age or be consigned to an approved feedlot, for finish feeding for
- **02. Adult Vaccination**. Female cattle or domestic bison may be vaccinated as adults with the approval of the Administrator.

slaughter only, prior to becoming three hundred sixty-five (365) days of age.

- **a.** Female cattle or bison which are three hundred sixty-five (365) days of age or older shall be negative to an official brucellosis test within ten (10) days prior to being vaccinated.
- **b.** The Administrator may make exceptions to the provisions of Section 101 of this rule on a case-by-case basis.
- **03.** Approval for Adult Vaccination. Accredited veterinarians representing owners, or accredited veterinarians authorized to perform services for specifically approved livestock markets who desire to have female cattle or domestic bison, which are over three hundred sixty-five (365) days of age vaccinated shall request approval from the Administrator. The Administrator may grant or deny the request to adult vaccinate the cattle based upon origin, history, age, pregnancy status and the potential of the cattle or domestic bison to spread other diseases of concern, such as tuberculosis or trichomoniasis. Approval or denial of the request to adult vaccinate the cattle shall be made within seven (7) working days of the date of the request.
- **04.** Adult Vaccinations Required. The Administrator may require animals at risk of becoming infected with brucellosis to be adult vaccinated. The animals shall be vaccinated at intervals and with the vaccinal dose determined by the designated brucellosis epidemiologist. Such vaccination shall be accomplished whether or not the animals have been previously vaccinated.

102. SALE OF FEMALE CATTLE OR DOMESTIC BISON THAT ARE NOT OFFICIALLY VACCINATED.

Female cattle and domestic bison that are not officially vaccinated, and are sold or otherwise transferred to another person by private treaty or through a specifically approved livestock market shall meet the following requirements:

- 01. Less Than Three Hundred Sixty Five Days of Age. Female cattle and domestic bison that are more than one hundred twenty (120) days of age and not more than three hundred sixty five (365) days of age at the time of sale or transfer to another person, may be sold to approved feedlots, directly to slaughter, to out of state destinations, or be consigned for sale at specifically approved livestock markets without being officially vaccinated. Such female cattle or domestic bison sold for breeding, grazing, or dairy purposes within Idaho shall be officially vaccinated prior to or immediately upon consummation of the sale.
- **Over Three Hundred Sixty Five Days of Age**. Female cattle and domestic bison over three hundred sixty five (365) days of age at the time of sale or transfer to another person may be consigned directly to an approved feedlot, out of state destination, slaughter, or specifically approved livestock market for sale to an approved feedlot, out of state destination, or slaughter.

103. OFFICIAL IDENTIFICATION OF CATTLE AND DOMESTIC BISON.

- **01. Official Calfhood Vaccinates**. Official calfhood vaccinates shall be permanently identified as vaccinates by tattoo and official vaccination eartag.
 - a. Vaccination tattoos shall be applied to the right ear. The tattoo shall start with the letter "R,"

Section 104 Page 84

105. LIVESTOCK MARKET RELEASE.

The accredited veterinarian authorized to provide veterinary services at a specifically approved livestock market shall perform a clinical inspection of all livestock and accurately complete a "Saleyard Release" form, certificate of veterinary inspection, or other market release mechanism certifying that the animals meet the health requirements for movement to the point of destination prior to any animals being released from the livestock market. ()

106. -- 119. (RESERVED)

120.	BRUCEL	LOSIS F	CRADICA	TION	AREAS.
140.	DICCEL		имысл		ALLAD.

The Director is authorized to declare the entire state, a portion of the state, entire county or part of a county an eradication area, pursuant to Idaho Code, Section 25-604, in order to contain an outbreak of brucellosis and prevent spread of brucellosis to herds in other counties and areas of the state.

- **01.** Circumstances Under Which Testing Is Required. Test eligible cattle, domestic bison, or other brucellosis susceptible species:
- **a.** Shall be subjected to an official brucellosis test within the thirty (30) days immediately preceding sale or movement out of an eradication area.
- **b.** For cattle or domestic bison consigned on a permit to a specifically approved stockyard, the brucellosis test requirement may be fulfilled at the stockyard by testing the cattle or domestic bison prior to sale.
- **02. Test Exemptions.** Test eligible cattle and domestic bison from eradication areas, consigned on a permit directly from a farm or ranch of origin to an approved slaughter establishment, or to a specifically approved stockyard for sale directly to an approved slaughter establishment, shall be exempt from pre-movement testing.
- 03. Discontinuance of Eradication Area. The eradication area designation shall exist only for the period of time necessary for the elimination of brucellosis infection from cattle and domestic bison in the area. After infection has been eliminated and Idaho has retained or regained brucellosis free status, the Director shall remove the eradication status from the area and the testing requirements shall be discontinued.

121. TEST ELIGIBLE CATTLE AND DOMESTIC BISON IN AN ERADICATION AREA.

Test eligible cattle and domestic bison in an eradication area are:

01. Unvaccinated or Vaccinated with Brucella Abortus Strain RB 51 Vaccine. Intact male and female cattle and domestic bison that are six (6) months of age or older.

122. MOVEMENT INTO OR OUT OF ERADICATION AREAS.

Cattle or domestic bison shall not be moved into or out of an eradication area except by the authorization of the Administrator.

- **01. Permits Authorizing Movement**. Movement of cattle or domestic bison into or out of an eradication area shall require a permit issued by the Administrator.
- **02. Contents of Permits**. Permits for movement into or out of an eradication area shall be of the form and content prescribed by the Administrator.

123. DESIGNATED SURVEILLANCE AREA (DSA).

All intact cattle and domestic bison within a DSA are subject to additional rule requirements for the prevention or eradication of brucellosis.

01. Individual Identification Requirements. All intact cattle and domestic bison, regardless of age, that leave the DSA must be identified with official individual identification.

Section 105 Page 85

Section 130 Page 86

Department of Agriculture APPLICATION FOR DESIGNATION AS AN IDAHO APPROVED FEEDLOT. Application for Idaho Approved Feedlot status shall be made on application forms available from the Administrator. 202. ADMINISTRATOR APPROVAL. The Administrator may approve feedlot applications after the feedlot has been inspected by state or federal animal health officials and: Cattle Secured. The feedlot management has demonstrated that cattle which have not been officially vaccinated can be secured in the feedlot; and Adequate Records. Feedlot records are adequate to show the origin and disposition of the cattle in the feedlot; and Adequate Resources. The Administrator determines that the Division of Animal Industries has adequate human and fiscal resources to assure that the feedlot abides by the provisions of this chapter; and Past History. The Administrator may take any past enforcement or violation history into consideration when making the final determination of whether or not to approve a feedlot. APPROVED FEEDLOT NUMBER. 203. Feedlots approved by the Administrator shall receive an Idaho Approved Feedlot Number. EXPIRATION OF APPROVED STATUS. Approved feedlot status shall expire on September 1 of each year. It shall be the responsibility of feedlot management to apply each year for renewal of approved status. 205. -- 249. (RESERVED) CONTENT OF RECORDS FOR APPROVED FEEDLOTS. All approved feedlots shall keep accurate and complete records of all cattle and domestic bison that enter the approved feedlot. These records shall readily show: Animals Received. The number, species, age, sex, brand, origin, date of entry, individual identification when required, and final disposition of all cattle and domestic bison received at the feedlot; and Animals Removed from Feedlot. The date of removal or sale, and destination of any animals 02. removed; and 03. **Death Loss.** Cattle and domestic bison losses by accident, disease or death shall be accurately recorded; and Requirements. That all applicable permit, test, examination, identification, and vaccination 04. requirements have been met.

251. RECORDS RETENTION.

Feedlot records shall be retained by the feedlot for a period of not less than one (1) year following removal of the cattle or domestic bison from the feedlot.

252. ENTRY REQUIREMENTS.

Idaho Approved Feedlots are allowed to feed all classes of cattle and domestic bison, except brucellosis-exposed, suspect, or reactor cattle and domestic bison. Test eligible cattle and domestic bison from Class A, and B states or areas, as defined in Title 9, Part 78, CFR, shall be tested negative prior to entry.

253. REMOVAL REQUIREMENTS.

All cattle and domestic bison, except steers and spayed heifers, leaving Idaho Approved Feedlots shall conform to the

approval of and under the conditions determined by the administrator.	()
254. TESTING. Under the Brucellosis UM&R, Idaho Approved Feedlots are considered herds, not Quarantined Feedlots.	()
01 MCI In the great that MCI algorithm testing displaces appetu(a) that some from the		

- **MCI.** In the event that MCI slaughter testing discloses reactor(s) that came from the approved feedlot, the test-eligible animals remaining in the feedlot will be subjected to a herd test for brucellosis, unless feedlot records are adequate to identify the herd from which the reactor(s) originated and an epidemiological investigation demonstrates that the cattle remaining in the feedlot are not exposed.
- **02. Exposed Cattle**. Cattle in an approved feedlot may be subject to testing for brucellosis if a brucellosis test conducted in the feedlot or an epidemiological investigation reveals that brucellosis exposed cattle have entered the feedlot.

255. INSPECTION.

The feedlot premises, the cattle or domestic bison therein, and the feedlot records shall be presented for inspection to the Administrator at any reasonable time.

256. REVOCATION OF APPROVED FEEDLOT STATUS.

The Administrator may revoke approved feedlot status by notifying the owner in writing. (

- **01. Failure to Comply.** In addition to any other department administrative or civil action, failure on the part of the feedlot operator to comply with the requirements of this chapter shall result in revocation of the Idaho Approved Feedlot status.
- **02. Operator Request.** Operators may have the approved status revoked by emptying the feedlot and requesting in writing that the status be revoked.
- **03. Regulation Changes**. Idaho Approved Feedlot status may be revoked at such time as revocation is required by changes in state or federal rules or regulations.
- **O4. Disposition of Cattle and Domestic Bison**. Should the Idaho Approved Feedlot status be revoked, cattle and domestic bison still in the feedlot shall be removed from the feedlot as provided in Section 252 of this rules. The Administrator shall have the authority to impose time limits for removal of cattle and bison.

257. -- 299. (RESERVED)

300. OFFICIAL IDENTIFICATION OF DOMESTIC CERVIDAE.

- **01. Identification at Time of Brucellosis Testing**. Domestic cervidae shall be individually identified with an official identification device and the individual identification recorded on an official test form, or any existing official identification on the animal shall be recorded on an official test form at the time of brucellosis testing.
- **02. Identification of Reactors**. Animals classified as reactors to an approved brucellosis test shall be identified by hot branding the letter "B" (at least two by two (2 x 2) inches) on the left hip and by placing an official reactor tag in the left ear before movement of the animal from the premises where tested.
- **03. Identification of Suspect and Exposed Animals**. Suspect and exposed animals shall be identified by hot branding the letter "S" (at least two by two (2 x 2) inches) on the left hip and the official eartag number shall be recorded on movement documents before movement of the animal from the premises where found or tested.
- **04. Exception to Identification of Reactor, Suspect, and Exposed Animals**. In lieu of tagging and branding reactor, suspect, or exposed animals, the Administrator may approve movement of these animals directly to slaughter in a sealed vehicle or accompanied by a state or federal animal health official. ()

Section 254 Page 89

301. -- 319. (RESERVED)

320. TESTING REQUIREMENTS.

- 01. Issuance of Order for Testing, Quarantine, or Disposal of Domestic Cervidae. The Administrator shall determine when testing, quarantine, or disposal of domestic cervidae infected with or exposed to brucellosis is required, pursuant to Title 25, Chapters 2, 6, and [37] 35, Idaho Code. If the Administrator determines that testing or disposal of domestic cervidae or disinfection or sterilization of facilities is required, a written order shall be issued to the owner describing the procedure to be followed and the time period for carrying out such actions.
- **O2.** Brucellosis-Free Certification of Domestic Cervid Herds. Domestic cervidae shall be tested in accordance with the UM&R for Brucellosis in Cervidae to obtain certification of a herd as brucellosis-free. All sexually intact animals six (6) months of age or older must have three consecutive negative tests nine (9) to fifteen (15) months apart for initial herd certification.

321. DOMESTIC CERVIDAE BRUCELLOSIS ERADICATION AREA.

The Director is authorized to declare the entire state, a portion of the state, entire county or part of a county a domestic cervidae brucellosis eradication area, pursuant to Section 25-604, Idaho Code, in order to contain an outbreak of brucellosis and prevent spread of brucellosis to herds in other counties and areas of the state.

322. TESTING AND MOVEMENT.

Testing and movement requirements related to cervidae brucellosis eradication areas shall be in accordance with the UM&R for Brucellosis in Cervidae.

323. -- 399. (RESERVED)

400. OFFICIAL IDENTIFICATION OF SWINE.

- **01. Swine Tested at Farm.** All swine bled on the farm as part of a complete herd test for swine brucellosis shall be individually identified by official VS-approved eartags, visible tattoos, or ear notches, provided the ear notch has been recorded in the book of record of a purebred registry association.
- **O2. Swine Tested at Market or Slaughter**. Sows and boars six (6) months of age and older shall be identified by an official VS-approved paper or plastic backtag applied to the head or poll region and/or an official VS-approved eartag when tested for swine brucellosis at markets or slaughter establishments.
- **03. Reactor Swine**. Swine reacting to the swine brucellosis test shall be identified by placing an official VS-approved reactor tag in the left ear.

401. -- 419. (RESERVED)

420. TESTING REQUIREMENTS.

- **01. Test Eligible Swine**. Brucellosis testing of swine at markets, at slaughter establishments and farms when required by the UM&R for Control/Eradication of Swine Brucellosis shall be performed on sexually intact animals 6 months of age and older.
- **02. Imported Domestic Swine**. Test eligible swine shall be negative to a swine brucellosis test thirty (30) days prior to importation into Idaho unless, the swine are from a validated swine brucellosis-free herd or state.
- **03. Semen Sold for Artificial Insemination**. All herds that market swine semen shall be subjected to a complete herd test annually and be validated swine brucellosis free.

421. SWINE BRUCELLOSIS ERADICATION AREA.

Section 320 Page 90

Such cattle sold to a destination other than an er establishment may be held under quarantine for forty-five (45) to one hundred twenty (120) days tional brucellosis tests.

Section 203 Page 99

212. TEST ELIGIBLE CATTLE. Test eligible cattle are all intact male and female cattle, twelve (12) months of age or older. All test eligible cattle shall be officially identified on the CVI in accordance with ADT requirements. 213. -- 219. (RESERVED) **GRAZING CATTLE.** Cattle herds moved into Idaho or from Idaho to other states for seasonal grazing periods shall be moved only under special grazing permits issued jointly by the Division of Animal Industries and the state animal health official in a state which reciprocates with Idaho in honoring grazing permits. **Grazing Permits.** Grazing permits shall be for one (1) specified season only and be issued prior to movement on a case-by-case basis. Entry Requirements. All livestock moving in or out of Idaho on an approved grazing permit must possess a valid CVI to the destined grazing location. Grazing livestock must meet ADT and other entry requirements prior to movement. Livestock herds that comply with all provisions of the grazing permit are not required to obtain a certification of veterinary certificate to return home. Herd Ownership. Cattle herds permitted to move under the provisions of Section 220 shall be established herds. Change of ownership of the herd shall not be allowed while the herd is under the requirements of the grazing permit, and the cattle shall be moved interstate with such certification, identification and testing as the Administrator may require. **Diversion**. Changes to the destined grazing location(s) listed on the approved grazing permit, either prior to departure or during the designated grazing period, are prohibited without prior notification to ISDA and the reciprocating state. 221. -- 229. (RESERVED) 230. EMERGENCY SITUATIONS. Cattle may be imported into the state of Idaho in emergency situations under special permit from the Administrator. Cattle Held Separate. Cattle allowed entrance under this provision shall be held separate and apart from Idaho cattle and quarantined for a specific time period to a specific area for grazing or feeding purposes. 02. Cattle Returned to State of Origin. At the end of the quarantine time period the cattle will be returned to the state of origin, but shall meet the state of origin's import requirements prior to departure from Idaho. Cattle That Remain in Idaho. If an owner desires to leave such cattle in Idaho after the time 03. period has expired, then such cattle shall meet the same health and test requirements as would normally be required of any imported cattle and this shall be done at the owner's expense. 231. -- 239. (RESERVED) TUBERCULOSIS TEST REQUIREMENTS. Cattle and domestic bison may enter the state of Idaho provided the following requirements are met as described in Title 9, Part 177, CFR:

Beef Breeds of Cattle. Cattle of beef breeds may enter the state without a tuberculosis test.

IDAHO ADMINISTRATIVE CODE IDAPA 02.04.23 - Commercial Department of Agriculture Livestock Truck Washing Facilities These rules apply to all CLTWF. 013. -- 049. (RESERVED) 050. INSPECTIONS. In order to ascertain compliance with this chapter, the Director shall have reasonable access to: **Inspect Facilities.** Inspect any facility or land application site listed in the CLTWF's NMP. 02. Inspect Records. Inspect, review, or copy any CLTWF's records deemed necessary, during normal business hours. 051. -- 099. (RESERVED) 100. PERMIT REQUIRED. No person shall construct or operate a CLTWF without first obtaining a permit to do so from the Director. APPLICATION FOR PERMIT. Applications for permits submitted to the Director shall contain the following: Name, Telephone Number, and Address. The name, telephone number, and address of the owner and operator of the CLTWF. 02. **Physical Address**. The physical address of the CLTWF. Scaled Vicinity Map With Site Location. A detailed sketch of the proposed or existing CLTWF site location, on an aerial photograph if available, which includes the following: The location of all homes, schools, churches, etc. within a one (1) mile radius of the proposed CLTWF; and Private and community domestic water wells, irrigation wells, existing monitoring wells, and existing injection wells as documented by Idaho Department of Water Resources or other sources, which are with in a one (1) mile radius of the proposed or existing CLTWF; and Irrigation canals, irrigation laterals, rivers, streams, springs, lakes, reservoirs, and designated wetlands, which are within a one (1) mile radius of the proposed CLTWF; and d. Location of all land application sites; and FEMA flood zones or other appropriate flood data for the CLTWF site and all land application sites. 04. Scaled Site Plan. A site plan showing all buildings, process wastewater and manure storage areas, piping, and roadways. Land Application System. A detailed description of the current or proposed management

Section 050 Page 110

practices and methods used to make land application including:

CLTWF is land applied.

Timing, frequency, and duration of practices.

Proximity of land application sites to residential and public use areas.

Nutrient Management Plan. A NMP for all land where manure or process wastewater from the

102. -- 109. (RESERVED) **DURATION OF PERMIT.** 110. Permits issued pursuant to this chapter are valid for a period of two (2) years.) RENEWAL OF PERMIT. The operator of a CLTWF shall submit an application to renew the permit to the Director for approval ninety (90) days prior to the expiration of the existing permit. 112. -- 119. (RESERVED) REVOCATION OF PERMIT. The Director may revoke the permit of any CLTWF that violates any of the provisions of this Chapter.) 121. -- 199. (RESERVED) 200. UNAUTHORIZED DISCHARGES. Unauthorized discharges of manure or process wastewater from CLTWF or land application sites owned or controlled by a CLTWF are prohibited. 201. -- 209. (RESERVED) NOTIFICATION OF DISCHARGE. Within twenty-four (24) hours of learning of a discharge, the operator of a CLTWF shall verbally notify the Director of such a discharge. WRITTEN NOTIFICATION. If the ISDA has not begun a discharge investigation within five (5) days of the verbal notification to the director, the operator shall submit a written report to the Director which includes: A Description of the Discharge. A description of the flow path to the receiving water body; and 01. 02. Flow Rate. An estimation of the flow rate and volume discharged; and) Dates and Time. The period of discharge, including dates and times, and if not already corrected, the anticipated time the discharge is expected to continue; and Steps Taken. Steps taken to reduce, eliminate, and prevent recurrence of the discharge. 04.) 212. -- 299. (RESERVED) WASTEWATER STORAGE AND CONTAINMENT FACILITIES. All CLTWF shall have wastewater storage and containment facilities designed, constructed, operated, and maintained sufficient to contain: 01. Process Wastewater. All process wastewater generated on the CLTWF during the non-land application season; and Rainfall. The runoff from a twenty-five (25) year, twenty-four (24) hour rainfall event; and 02. Winter Precipitation. Either three (3) inches of runoff from the accumulation of winter 03. precipitation or the amount of runoff from the accumulation of precipitation from a one-in-five (1 in 5) year winter.

Section 110 Page 111

(RESERVED)

301. -- 309.

310. CONSTRUCTION REQUIREMENTS.

All CLTWF shall have wastewater storage and containment facilities designed and constructed in accordance with the engineering standards and specifications contained in the Natural Resources Conservation Service Agricultural Waste Management Field Handbook, Appendix 10D or the American Society of Agricultural Engineers Standard EP393.3, or other equally protective standards approved by the Director.

311. -- 319. (RESERVED)

320. SUBSTANCES ENTERING WASTEWATER STORAGE AND CONTAINMENT FACILITIES.

Only manure and process wastewater from the operation of the CLTWF shall be allowed to enter wastewater storage and containment facilities. The disposal of any other materials into a wastewater storage and containment facility, including, but not limited to oil, grease, heavy metals, chlorinated solvents, and human waste is prohibited.

321. -- 329. (RESERVED)

330. NUTRIENT MANAGEMENT.

Each CLTWF shall submit, to the Director for approval, a NMP that conforms to the nutrient management standard.

- **01. Odor**. Each NMP shall address odors generated on the CLTWF, and land application sites. Odors shall not be generated in excess of odors normally associated with livestock production in Idaho.
- **02.** Land Application. Each NMP shall include all land to which manure or process wastewater from the CLTWF is land applied.
- **03. Duty of Operator**. It shall be the duty of the operator of a CLTWF to ensure that the NMP, for any land included in the NMP, is implemented.
- **04. Implementation of NMP**. Failure to implement and abide by an approved NMP is a violation of this chapter.
- 331. -- 359. (RESERVED)

360. NEW CLTWF.

Any new CLTWF shall submit a NMP to the Director for approval with its application for a permit to operate a CLTWF. The Director responds to or approves such NMP within sixty (60) days of submission.

361. -- 999. (RESERVED)

4,000 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0
03. Animals Sold for Slaughter . At the time of the test or condemnation, the animals belonged to or were upon the premises of any person to whom the animals had been sold, shipped, or delivered for slaughter.
04. Unapproved Test. The animals were subject to a test not approved by the Administrator. (
05. Untested Animals. All animals in the owner's herd have not been tested for tuberculosis under state or federal supervision.
06. Premises Not Cleaned . The premises occupied by the tuberculosis infected animals were not cleaned and disinfected as directed, under state or federal supervision.
07. Attempt to Improperly Obtain Funds . There is substantial evidence that the owner or his agent has in any way been responsible for any attempt unlawfully or improperly to obtain indemnity funds for such animals.
08. Unidentified Cattle and Bison. Cattle or bison destroyed because of tuberculosis, unless they were marked for identification by branding the letter "T" on the left hip near the tailhead, not less than two (2) inches high, and unless a metal tag bearing a serial number and inscription "US REACTOR" or similar US Reactor tag, was suitably attached to the left ear of each animal.
09. Calves. If the entire herd is not depopulated and the cattle or bison were calves under one hundred eighty (180) days of age.
032 099. (RESERVED)
100. OFFICIAL IDENTIFICATION. All cattle, bison, domestic cervidae, and goats tested for tuberculosis shall be individually identified by official eartag, individual tattoo, or individual brand, as provided in the UMR for bovine tuberculosis, at the time of injection.
101. CATTLE, BISON, GOATS, AND DOMESTIC CERVIDAE MARKET RELEASE. The accredited veterinarian authorized to provide veterinary services at a specifically approved livestock market shall perform a clinical inspection of all cattle, bison, goats, and domestic cervidae and accurately complete a "Saleyard Release" form, certificate of veterinary inspection, or other market release mechanism certifying that the animals meet the health requirements for movement to the point of destination prior to any animals being released from the livestock market.
102 119. (RESERVED)
120. CLASSIFICATION OF CATTLE, BISON, AND DOMESTIC CERVIDAE. Classification of cattle, bison, and domestic cervidae tested for tuberculosis is determined pursuant to the UMR for bovine tuberculosis.
121 199. (RESERVED)
200. PROCEDURES FOR INFECTED HERDS. Disclosure of tuberculosis in any herd shall be followed by a complete epidemiological investigation and testing as provided in the UMR for bovine tuberculosis.
201 209. (RESERVED)
210. PROCEDURES FOR TUBERCULOSIS - INFECTED FEEDLOTS. A tuberculosis-infected feedlot is handled in the same manner as an affected herd in regard to epidemiological investigation and the development of epidemiological tracings for animal movements into and out of the feedlot.

Section 100 Page 118

)

211. -- 219. (RESERVED)

220. DISPOSITION OF TUBERCULIN-RESPONDING CATTLE, BISON, AND DOMESTIC CERVIDAE.

Cattle, bison, and domestic cervidae that respond to the tuberculin test shall be handled according to the UMR for bovine tuberculosis.

221. -- 249. (RESERVED)

250. IDENTIFICATION OF REACTOR CATTLE AND BISON.

- **01.** "T" Branding and Tagging. Reactor cattle and bison shall be identified by branding the letter "T" on the left hip near the tailhead, not less than two (2) inches and not more than three (3) inches high, and by tagging with an approved metal eartag bearing a serial number and inscription "U.S. Reactor" or a similar State reactor tag suitably attached to the left ear of each animal.
- **02. Shipping Without Branding**. In lieu of branding, the reactor(s) may be shipped to slaughter in an officially sealed vehicle or accompanied to slaughter by a state or federal animal health official provided such reactor(s) have the letters "TB" sprayed on the left hip with yellow paint.

251. -- 259. (RESERVED)

260. IDENTIFICATION OF EXPOSED CATTLE AND BISON.

Cattle and bison exposed to bovine tuberculosis are to be identified in the following manner:

- **01.** "S" Branding and Tagging. To be eligible for federal indemnity, exposed cattle and bison shall be identified by branding the letter "S" on the left hip near the tailhead, not less than two (2) inches nor more than three (3) inches high, and by tagging with an approved metal eartag bearing a serial number attached to either ear of each animal.
- **02. Shipping Without Branding**. In lieu of branding, such animals may be accompanied to slaughter by a state or federal animal health official or be shipped in vehicles sealed with official seals.

261. -- 299. (RESERVED)

300. RETESTING OF HIGH-RISK HERDS.

Retesting schedules for high-risk herds of cattle and bison are determined pursuant to the UMR for bovine tuberculosis.

301. -- 399. (RESERVED)

401. APPROVED FEEDLOT.

Cattle and domestic bison of unknown Tuberculosis test status may be fed for slaughter only in an Approved Feedlot, with no provisions for pasturing, grazing, or removal from the feedlot other than to slaughter.

402. APPLICATION FOR DESIGNATION AS AN APPROVED FEEDLOT

Applications for Approved Feedlot status are made on forms available from the Administrator. (

403. ADMINISTRATOR APPROVAL.

The Administrator may approve feedlot applications after the feedlot has been inspected by state or federal animal health officials and:

- **01.** Cattle Secured. The feedlot management has demonstrated that cattle of unknown Tuberculosis test status can be secured in the feedlot; and
- **02.** Adequate Records. Feedlot records are adequate to show the origin and disposition of the cattle in the feedlot; and

Section 220 Page 119

03. Adequate Resources. The Administrator determines that the Division of Animal Industrate adequate human and fiscal resources to assure that the feedlot abides by the provisions of this chapter; and	,	has)
04. Past History . The Administrator may take any past enforcement or violation historiconsideration when making the final determination of whether or not to approve a feedlot.	ry ii (nto)
404. APPROVED FEEDLOT NUMBER. Feedlots approved by the Administrator will receive an Idaho Approved Feedlot Number.	()
405. EXPIRATION OF APPROVED STATUS. Approved Feedlot status expires on September 1 of each year. It is the responsibility of feedlot management to each year for renewal of approved status.	o ap _] (ply)

012. -- 019. (RESERVED)

ĺ	120.	Δ	PР	T	IC.	Δ	RI	П	T	ГΊ	7

In order to prevent the spread of brucellosis and other diseases between big game animals and from big game animals to livestock, these rules apply to all persons who purposely or knowingly provide supplemental feed to big game animals within the area designated in Section 100 of these rules, except supplemental feeding activities conducted by, or emergency feeding activities authorized by IDFG.

021. -- 099. (RESERVED)

100. EASTERN IDAHO BIG GAME PRIVATE FEEDING PROHIBITION ZONE.

In order to prevent the spread of brucellosis and other diseases between big game animals and from big game animals to livestock, the following portion of Idaho is designated as the eastern Idaho big game private feeding prohibition zone:

01.	Clark County. All of Clark County east of Interstate Highway 15.	(
02.	Fremont County. All of Fremont County.	(
03.	Teton County. All of Teton County.	(
04.	Madison County. All of Madison County.	(
05.	Jefferson County. All of Jefferson County east of Interstate Highway 15.	(
06.	Bonneville County. All of Bonneville County east of Interstate Highway 15.	(
07.	Caribou County. All of Caribou County.	(
08.	Bear Lake County. All of Bear Lake County.	(

101. PRIVATE FEEDING OF BIG GAME ANIMALS PROHIBITED.

No person shall purposely or knowingly provide supplemental feed to big game animals within the eastern Idaho big game private feeding prohibition zone, except supplemental feeding activities conducted by, or emergency feeding activities authorized by IDFG.

102. INCIDENTAL GRAZING.

Incidental grazing by big game animals on private rangeland forage, standing agricultural crops, or agricultural crop residue left on the ground following typical harvest practices is not considered providing supplemental feed.

103. -- 119. (RESERVED)

120. INCIDENTAL FEEDING.

Incidental feeding of big game animals during the normal practice of providing feed to livestock in the winter is not a violation of this chapter, provided the owner and operator of the premises where the livestock are being fed cooperate with the ISDA, as determined by the Administrator, to facilitate conducting big game management activities that will eliminate the feeding of big game animals.

121. SPATIAL SEPARATION.

When requested by the Administrator, IDFG will cooperate with ISDA in maintaining spatial separation of livestock and big game animals.

122. -- 149. (RESERVED)

150. MANAGEMENT ACTIVITIES.

The Administrator may request that IDFG assist in conducting big game management activities, which include but

102. TEMPORARY EXHIBITOR PERMITS.

A traveling exhibition may not possess any deleterious exotic animal in the state unless the traveling exhibition obtains a temporary exhibitor permit issued by the Administrator.

- **01. Application for Temporary Exhibitor Permits**. Persons seeking a temporary exhibitor permit must make application on a form prescribed by the Administrator and include the following information:
- **a.** The applicant's name, address (business and mailing) and Employer Identification Number or Social Security Number.
- **b.** The name and address of the owner(s) and operator(s) of the temporary exhibition, if not the applicant.
- **c.** Description of the cages or other housing in which the deleterious exotic animal(s) will be kept in the state.
- d. The physical address of each location(s) at which the deleterious exotic animal(s) will remain while in the state.
 - **e.** A map identifying the location(s) at which the deleterious exotic animal(s) will be kept. (
- f. Name and address of the owner(s) of the location(s) at which the deleterious exotic animal(s) will be kept.
- **g.** Written statement detailing the procedure(s) in the event a deleterious exotic animal escapes from the temporary exhibit.
 - **h.** Documentation of licenses issued by the USDA, if applicable.
- **02. Period of Validity**. Temporary exhibitor permits are valid for no more than forty-five (45) days after the date of issuance of the permit.
- **03. Removal.** All deleterious exotic animals subject to a temporary exhibitor permit must be removed from Idaho prior to the expiration of the import permit.

103. -- 109. (RESERVED)

110. IMPORTATION OF DELETERIOUS EXOTIC ANIMALS.

No person may import any deleterious exotic animal into the state unless the deleterious exotic animal is accompanied in transit by an import permit issued by the Administrator and an official certificate of veterinary inspection.

111. -- 119. (RESERVED)

Section 102 Page 127

)

)

120. DISPOSITION OF NON-PERMITTED DELETERIOUS EXOTIC ANIMALS.

The Administrator may order non-permitted or illegally possessed or imported deleterious exotic animals to be removed from the state, moved to facilities that are in compliance with this chapter, or destroyed.

121. TRANSFER OF DELETERIOUS EXOTIC ANIMALS.

No person may transfer, sell, barter, trade, change ownership, or change possession of any deleterious exotic animal, unless the person receiving the deleterious exotic animal has obtained a possession permit, issued by the Administrator, prior to the animal being transferred.

122. RELEASE OF DELETERIOUS EXOTIC ANIMALS.

No person may release any deleterious exotic animal within the state.

123. REVOCATION OF PERMITS.

Permits issued pursuant to this chapter may be revoked at any time if the Administrator finds violations of any of the provisions of this chapter.

124. -- 200. (RESERVED)

201. CONFINEMENT AREAS.

All deleterious exotic animals must be confined in areas/facilities constructed to prevent escape. ()

202. ESCAPE OF DELETERIOUS EXOTIC ANIMALS.

Persons possessing deleterious exotic animals must report the escape of any deleterious exotic animal to the Administrator within twenty-four (24) hours of the discovery of the escape.

203. IDENTIFICATION OF DELETERIOUS EXOTIC ANIMALS.

All deleterious exotic animals must be identified with a unique identification according to the following standards, depending on the species of the deleterious exotic animal:

- **01. Birds**. Birds are to be identified with a microchip and a leg band. (
- **02. Mammals**. Mammals are to be identified with a microchip. ()
- 204. -- 299. (RESERVED)

300. RECORDKEEPING.

- **01. Annual Inventory.** Any person that possesses deleterious exotic animals must submit a complete and accurate annual inventory of such animals to the Administrator on or before the first day of July each year on a form approved by the Administrator, available at https://agri.idaho.gov. ()
- **Records of Transfers**. All persons who transfer, sell, barter, trade, change ownership, or change possession of deleterious exotic animals must keep complete and accurate records of the disposition of any deleterious exotic animals, including the new contact information for persons in possession of the deleterious exotic animal and date of disposition. Such records must be maintained for a minimum of three (3) years and presented to the Administrator upon request.
- **301. 399.** (RESERVED)

400. LIST OF DELETERIOUS EXOTIC ANIMALS.

The Administrator may add or remove animal species to the list of deleterious exotic animals in this chapter by issuing a written order listing animals and the reasons for adding them to or removing them from the list deleterious exotic animals.

401. DELETERIOUS EXOTIC ANIMALS - BIRDS.

O1. Mute Swan, (Cygnus olor). Mute swans except those that have been pinioned.

200. BULLS FOR SALE.

Bulls presented for sale at specifically approved livestock markets, shows, special sales, or by private contract in Idaho shall be accompanied by a certificate of negative test and a statement signed by the owner certifying "Trichomoniasis has not been diagnosed in the herd of origin;" or

- **Returned to Home Premises.** Such bulls shall be returned to home premises for official testing; or
- **O2. Sold Directly to Slaughter**. Such bulls shall be sold directly to slaughter at an approved slaughter establishment, an Idaho approved feedlot, as defined in IDAPA 02.04.20, "Rules Governing Brucellosis"; or
- **03. Placed Under a Hold Order**. Such bulls will be placed under Hold Order by the livestock market veterinarian or a private veterinarian and have three (3) consecutive negative Trichomoniasis or PCR culture tests. The samples for each test shall be collected at least seven (7) days apart and tested for Trichomoniasis to be eligible to receive a certificate of negative test; or
- **04. Virgin Bulls**. Virgin bulls native to Idaho that are less than twenty-four (24) months of age and have never serviced a cow shall be identified with an official Trichomoniasis bangle tag of the correct color for the current testing season.
- **05. Period of Validity**. For resident breeding bulls sold in Idaho, the negative test is valid for up to ninety (90) days provided the bull(s) has had no contact with female cattle from the time of test to the time of sale.
- **06.** Contact with Female Cattle. Bulls that have had contact with female cattle subsequent to testing must be retested prior to sale.

201. -- 209. (RESERVED)

210. IMPORTED BULLS.

- **01. Non-Virgin Bulls**. Non-virgin breeding bulls may be imported into the state of Idaho provided they meet the following requirements:
- a. If the bull originates from a herd of bulls wherein all bulls have tested negative for Trichomoniasis since being removed from cows, the bull shall have been tested negative to a Trichomoniasis culture test within sixty (60) days prior to import and have had no contact with female cattle from the time of test to the time of import; or
- **b.** If the bull originates from a herd where one (1) or more bulls or cows have been found infected with Trichomoniasis, the bull shall have three (3) consecutive negative Trichomoniasis culture or PCR tests. The samples for each test shall be collected at least seven (7) days apart and tested for Trichomoniasis, the last test being within sixty (60) days prior to import into Idaho; or
- c. If the bull is a single bull with no prior herd test history or originates from a herd of bulls that is still with cows or that has not been tested for Trichomoniasis since being removed from cows, the bull shall have three (3) consecutive negative Trichomoniasis culture or PCR tests. The samples for each test are to be collected at least seven

Section 110 Page 133

IDAPA 02.04.29 Rules Governing Trichomoniasis

(7) days apart and tested for Trichomoniasis, the last test being within sixty (60) days prior to import into Idaho.
d. Upon arrival at their destination in Idaho, all imported bulls shall be identified with an official Trichomoniasis bangle tag of the correct color for the current testing season, except imported dairy bulls that will be in a dry lot operation are not required to be identified with an official Trichomoniasis tag upon arrival at their destination.
02. Virgin Bulls . Bulls imported into Idaho that are less than eighteen (18) months of age and have never serviced a cow are not required to be Trichomoniasis tested prior to import into Idaho, provided that: ()
a. Such bulls are accompanied by a certificate signed by the owner or the owner's representative attesting that the animals are virgin bulls and have never serviced a cow; and
b. Upon arrival at their destination in Idaho, such bulls are identified by an Idaho accredited veterinarian with an official Trichomoniasis bangle tag of the correct color for the current testing season. ()
03. Bulls for Grazing . Bulls that are entering Idaho for grazing purposes shall meet the Trichomoniasis test requirements of Section 100 of this rule. A copy of the certificate of negative Trichomoniasis test shall accompany the grazing permit application.
211 299. (RESERVED)
300. PUBLIC GRAZING. All bulls that are turned out on public grazing allotments shall be certified and identified as virgin bulls, or tested negative for Trichomoniasis at least forty-five (45) days prior to the turnout date, or before April 15 of each testing season, which ever occurs first.
01. Grazing Associations . All bulls that are in a public grazing association or run in common on an allotment will be considered part of one (1) herd.
O2. Positive Tests . If any bull owned by any of the producers in a grazing association or allotment tests positive on a Trichomoniasis test, the rest of the producers in the association or allotment are considered part of an infected bull herd and handled in accordance with Section 310 of this rule.
301 309. (RESERVED)
310. INFECTED BULLS AND HERDS. Any bull or cow that is positive to a Trichomoniasis culture or PCR test is considered infected. A herd in which one (1) or more bulls or cows are found infected with Trichomoniasis is considered infected.
01. Confirmatory Testing of Culture Positive Bulls. Any culture positive bull must be confirmed positive for Trichomonas foetus by Polymerase Chain Reaction (PCR) test unless the animal is destined directly to slaughter. The positive culture specimen must be submitted to a qualified laboratory, approved by the Administrator, in accordance with the qualified laboratories submission requirements.
a. If polymerase chain reaction (PCR) determines the bull is positive or inconclusive for <i>Trichomonas foetus</i> , the bull will be considered positive for trichomoniasis.
b. If polymerase chain reaction (PCR) determines the bull is negative for <i>Trichomonas foetus</i> , the bull will be considered negative for trichomoniasis.
Quarantine of Infected Herds . Any veterinarian that discovers an infected herd shall immediately place the herd under a Hold Order, and notify the Division of Animal Industries within forty-eight (48) hours that the

test was positive. Upon notification of an infected Trichomoniasis herd, a state or federal animal health official will conduct an epidemiological investigation of the infected herd and issue a quarantine. The quarantine may include a provision requiring all breeding age female cattle in the infected herd to be held in isolation from all bulls for a period

330. OFFICIAL LABORATORIES.

Only laboratories approved by the Division of Animal Industries as official laboratories may test official Trichomoniasis samples.

- **01. Protocols.** Official laboratories will operate in accordance with the official Idaho "Protocol for *Trichomonas foetus* Diagnosis in Cattle."
- **02. Check Test.** Official laboratories personnel responsible for conducting trichomoniasis testing must be trained and certified by ISDA in the detection of trichomonad organisms and must pass a certifying check test administered by the Division of Animal Industries.

331. OFFICIAL TRICHOMONIASIS TESTS.

- **01. Official Culture Tests.** An official test is one in which the sample is received in the official laboratory, in good condition, and such sample is tested according to the official Idaho "Protocol for *Trichomonas foetus* Diagnosis in Cattle." Samples which have been frozen or exposed to high temperatures shall be discarded.
- **02. Polymerase Chain Reaction**. Polymerase Chain Reaction is accepted as an official test when completed by a qualified laboratory, approved by the Administrator.
- **03.** Other Official Tests. Other tests for Trichomoniasis may be approved by the Division of Animal Industries, as official tests, after the tests have been proven effective by research, have been evaluated sufficiently to determine efficacy, and a protocol for use of the test has been established.

332. REGISTERED VETERINARIANS.

Only veterinarians registered with the Division of Animal Industries may collect samples for official tests for Trichomoniasis within the state of Idaho.

- **01. Use of Official Laboratories**. Registered veterinarians are to utilize only official laboratories for testing of Trichomoniasis samples.
- **02.** Education Requirements. All veterinarians shall attend an educational seminar on Trichomoniasis and proper sample collection techniques, conducted by the Division of animal Industries, prior to being granted registered status.

333. REPORTING OF TEST RESULTS AND OFFICIAL IDENTIFICATION.

Registered veterinarians must submit results of all Trichomoniasis tests and all official identification on official Trichomoniasis test and report forms to the Division of Animal Industries within five (5) business days of:

- **01.** Receiving Results. Receiving Trichomoniasis results from an official laboratory; or
- **02. Identifying Virgin Bulls**. Identifying virgin bulls with official Trichomoniasis bangle tags.

334. -- 399. (RESERVED)

400. RODEO BULLS.

Bulls currently in a rodeo string, bulls purchased under the feedlot exemption at a specifically approved livestock market, bulls purchased by private treaty, and bulls purchased in other states and imported into Idaho for rodeo purposes are exempt from Trichomoniasis testing under the following conditions:

- **01. Division Approval**. The owner of the rodeo bulls has completed and submitted an application to the Division of Animal Industries, which the Division has approved; and
- **02. Not Mixed with Cows**. The rodeo bulls are confined to a dry lot and not mixed with cows or used for breeding purposes; and

Section 330 Page 136

03. Permanently Identified. All bulls in the rodeo string are permanently identified with official eatags or unique numbers hot iron branded on the animal; and
04. Records Maintained . The identification numbers are maintained in a permanent record file at the owner's premises and a copy of the record will be provided to the Division of Animal Industries upon request; and (
805. Bulls Purchased. Bulls purchased for addition to the rodeo string shall meet all other health requirements. Purchased bulls shall be immediately identified as specified in Subsection 400.03 of this rule. Official back tag and ear tag numbers on the bull at time of purchase shall be correlated to the permanent identification in the permanent record; and
806. Removed for Slaughter. Removal of bulls to slaughter is documented in the permanent (
O7. Bulls Removed for Breeding Purposes. Bulls that are removed from the rodeo string for breeding purposes shall undergo three (3) consecutive negative PCR tests or cultures for Trichomoniasis. The samples for each test are to be collected at least seven (7) days apart and tested for Trichomoniasis to be eligible to receive a certificate of negative test.
401 409. (RESERVED)
410. FEEDING BULLS OF UNKNOWN TRICHOMONIASIS STATUS. Bulls of unknown Trichomoniasis status may be fed for slaughter in an Idaho approved feedlot where the bulls are isolated from all female cattle.
01. Removal of Untested Bulls. Untested bulls shall be sold directly to slaughter at an approved slaughter establishment.
02. Removal of Bulls for Breeding Purposes . Bulls that are removed for breeding purposes shall undergo three (3) consecutive negative PCR tests or cultures for Trichomoniasis. The samples for each test are to be collected at least seven (7) days apart and tested for Trichomoniasis to be eligible to receive a certificate of negative test.
411 499. (RESERVED)
500. INFECTIONS WITH OTHER TYPES OF TRICHOMONADS. Bulls that have had a positive culture result for Trichomoniasis testing may be further evaluated to determine if the organism is <i>Tritrichomonas foetus</i> or another species of Trichomonad. Bulls having positive Trichomoniasis culture results on the initial test will not be considered positive for Trichomoniasis under the provisions of this rule if they meet the following criteria:
01. Trichomonad Organisms Identified . The culture media containing the organisms that have been collected from the bull is forwarded to a laboratory, approved by the Administrator, that has the ability to identify Trichomonad organisms through Polymerase Chain Reaction; and
02. Tritrichomonas foetus Not Present . None of the Trichomonad organisms in the submitted culture are identified as <i>Tritrichomonas foetus</i> . (
03. Inconclusive Test Results . The Administrator may approve retesting of bulls with inconclusive Trichomoniasis test results. If the bulls are found to be Trichomoniasis negative on three (3) consecutive tests that are separated by at least seven (7) days, the bulls may be considered Trichomoniasis negative and released from quarantine.

220. APPLICABILITY.

01. Site for a Proposed CAFO. A CAFO site advisory team shall review and make a site su	uitability
determination for all proposed CAFO sites, as defined in Subchapter B of these rules, submitted by a board o	f county
commissioners pursuant to Subchapter B.	()

- **02. Sites That Do not Meet the Definition of a CAFO**. The Director may form a CAFO site advisory team, as requested by a board of county commissioners, for a site that does not meet the animal numbers in the definition of a CAFO provided that:
- **a.** The county demonstrates that the site is in an environmentally sensitive area or is in close proximity to streams, lakes, or other bodies of surface water; or
- **b.** The state agencies have personnel and other resources available to conduct the site suitability determination.

221. -- 229. (RESERVED)

230. FORMATION OF A SITE ADVISORY TEAM.

A board of county commissioners may request the formation of a CAFO site advisory team to provide a site suitability determination by submitting to the Director a written request supported by the adoption of a resolution by the county.

- **01. Designation of the Team Leader**. Upon receipt of a request to form a site advisory team, the Director shall designate a team leader.
- **02. Notification of Team Members.** The team leader shall provide a copy of the request to form a site advisory team to DEQ and IDWR. After receiving notification, DEQ and IDWR shall notify the Team Leader of their respective representatives to the team.

)

requirements of Subpart P of the Produce Safety Rule and 21 CFR 10.30, the Department will notify the petitioner and return the petition for correction. After correcting the deficiencies, the petitioner must resubmit the petition to the Department. Within thirty (30) days, the Department will complete an additional review of the petition to determine if the petition meets the requirements of Subpart P of the Produce Safety Rule and 21 CFR 10.30.

iii. If, after reviewing the petition, the Department determines that the petition meets the requirements of Subpart P of the Produce Safety Rule and 21 CFR 10.30, the Department will submit the petition to the FDA within ten (10) days of that determination. If, after reviewing the petition, the Department determines that the petition still does not meet the requirements of Subpart P of the Produce Safety Rule and 21 CFR 10.30, the Department will follow the procedure in Subparagraph 012.01.b.ii.

02. Support and Withdrawal of Petitions.

- a. When the Department submits a petition to the FDA, the petitioner who prepared the petition, or an individual, business, group, association, or entity that supports the petition, shall assist the Department in responding to inquiries or directions from the FDA regarding the petition. If neither the petitioner nor an individual, business, group, association, or entity that supports the petition provides this assistance to the Department within thirty (30) days, the Department may withdraw the petition.
- **b.** If the FDA takes action to modify or revoke a variance previously granted to the Department, the Department may waive the opportunity for a hearing unless a petitioner or an interested person adequately supports the Department in defending the variance in whole or in part from modification or revocation by FDA.
