

STATEMENT OF PURPOSE

RS28751 / H0293

This bill supports full-time, in-person instruction for K-12 students on school premises. If a school is unable to provide full-time, in-person instruction a parent has the option to withdraw their student to seek an alternative education solution. The parent or guardian will be provided with a pro-rated reimbursement payment for use on eligible education expenses to conduct the education of their student.

FISCAL NOTE

This has no effect on the general fund above the current public schools funding formula. An amount equivalent to the average per pupil appropriation would be withdrawn from the public schools appropriation and distributed to the eligible parent for use toward eligible education expenses. The funds distributed to the family for eligible expenses would be taken from the applicable school district or charter schools public schools foundation payment. Any unused funds would be returned to the public school fund.
