

## STATEMENT OF PURPOSE

RS28561 / S1113

The purpose of this legislation is to clarify Idaho Transportation Department stopping and inspection authority at check stations (ports of entry, weigh stations, and temporary check stations) as required in Idaho code 40-511. Currently, non-commercial vehicles above 26,000 lbs. gross weight are not required to stop at any of the above listed stations. For example, a Class A motorhome is not required to stop even if above the weight limit. Vehicles with a maximum gross weight greater than 10,000 lbs. and transporting livestock are required to stop at any check station. A distinction is not made between commercial and non-commercial activity. This means that a pickup with horse trailer going to a trailhead for a recreational trail ride should be pulling in at all check stations. The bill clarifies that non-commercial vehicles are not required to stop at check stations.

## FISCAL NOTE

This legislative proposal represents no fiscal impact on the Idaho State General Fund nor any other governmental entity. No dollars are used for defining stopping and inspection authority at check stations.
